

## BRITISH HOUSE DOWNS PEACE MOVE

Indicates Little Interest  
In any Hope of a Useful  
Peace Move Now

## ASQUITH MAKES ADDRESS

Asserts Nothing is to Be Hoped  
from Present Temper of Ger-  
man Reichstag and People

## MATTER FOR THE PEOPLE

LONDON, July 26.—The house of commons, after employing the whole evening session in a discussion of a peace resolution moved by James Ramsay MacDonald, Socialist and labor member, defeated it by a vote of 148 to 19. The announcement of the figures was received with some cheers and much laughter.

**Asquith Voices Conviction.**  
The smallness of the numbers in the house when division was taken is an indication of the little interest shown by parliament in any hope of a useful peace movement at the present juncture and the conviction was voiced in an important statement by Herbert H. Asquith, the former premier, that nothing was to be hoped from the present temper of the German reichstag and people.

Mr. MacDonald, as shown by the vote, found very few supporters. George James Wardle, in behalf of the labor party, declined to have anything to do with this pacifist resolution.

Philip Snowden, Socialist, said the debate disclosed that the British government more than any other belligerent was standing in the way of an early settlement. He protested against any more blood being shed to restore Alsace-Lorraine to France.

**Awaits Belgian Restoration.**  
Charles P. Trevelyan, who seconded the resolution, said all agreed that peace awaited the restoration of Belgium and France without any conditions. He doubted whether there could be peace until all the governments clearly and expressly repudiated the ideal of conquest or annexations. While it might be the duty of the government to reply to the German chancellor it was the duty of the house of commons to reply to the reichstag resolution.

Dr. Michaelis' speech was upon that resolution and the fact that he did not speak against it ought not to be overlooked. Former Premier Asquith, though speakers attached more importance to the reichstag resolution than it deserved. They seemed to have regretted the circumstances after it was passed. After obscure struggle in Berlin in which for a time it seemed as if the advocates of a relatively moderate policy would get their way, the military chief arrived on the scene and obtained the dismissal of the imperial chancellor in whom the emperor only a few days before had expressed his unbounded and undiminished confidence.

Peace, said Mr. Asquith, should become the supreme interest of mankind but subject to the condition that it is a peace which does not defeat the purpose for which the great nations entered upon the war.

He welcomed the news that a conference would be held in the autumn on the invitation of the Russian government. Nothing but good could come of a plain re-statement of the allies' aims in a good cause. Two new facts of the present year, that Russia had ceased to be autocratic and the appearance with all her moral and material forces, of the United States in the struggle had a direct bearing upon the opinion of the world as to the sincerity of the allies' aims.

**Allies Fighting for Freedom.**  
"They mean," continued the former premier, that the allied nations now include an overwhelming majority of the free peoples of the world. The allies are fighting for nothing short of freedom.

"Earnestly as we desire peace, no peace is worth having which restored under some thin disguise the precarious status quo ante-Bellum and left countries like Belgium, Serbia and Greece at the mercy of dynastic intrigues or under the menace of military coercion.

"The principle agreed to by all the allies is that in any geographical re-arrangement the governing principle ought to be the interests and the wishes of the populations affected. But is Germany prepared not only to evacuate Belgium, but to make reparation for the colossal injuries done? Is she prepared to restore to Belgium, not a pretense of, but absolute independence?

"I find no answer in the vague, indeterminate formula of the reichstag. I have no desire to say that peace is impossible, but I cannot see any real approximation of a practical kind to the aims and objects of the allies."

Mr. Asquith thought that the German people was the greatest obstacle to peace. So far as the allies were concerned, the best hope of

## PRINTS STORIES OF ATTEMPT TO KILL KAISER

AMSTERDAM, July 26.—The Weser Zeitung of Bremen prints prominently "stories with more or less elaborate particulars, that have gained currency of an attempt made recently on the life of Emperor William." The "details" include one report that the emperor's jaw was smashed. At the conclusion of the article the newspaper says:

"The general command at Altona in reply to our inquiry authorizes us to make the following announcement:

"As the result of inquiries made in proper quarters it may be stated that the rumor of an attempt on the Kaiser is wholly untrue."

## TWO KILLED IN RACE RIOTS IN CHESTER, PA.

Trouble Breaks Out After Day  
of Comparative Quiet

Twenty Others Hurt—Scores Arrested—Authorities Announce at 10 O'clock That They Have the Situation Well in Hand

Chester, Pa., July 26.—Two men, a white man and a negro were killed in race riots which broke out anew here tonight after a day of comparative quiet. About twenty others were injured. Scores of persons were arrested and the authorities announced at ten o'clock they had the situation well in hand.

**Mob Invades Negro Section**  
The rioting, which started last night as the result of the killing of William McKinney, a young white man by negroes last Tuesday reached its climax tonight when a mob of several hundred whites invaded the negro section.

Negroes who ventured to retard their progress were beaten down with clubs and houses were searched in the hope of discovering one of the suspects in the McKinney case. One of tonight's victims was Joseph McCann, white, 28 years old said to have been a leader of the mob. When he fell mortally wounded the invading whites were augmented by hundreds of onlookers. Several negroes were dragged from street cars and beaten into unconsciousness. One was fatally shot. Scores of shots were fired by the negroes from the windows of their homes and several white men and boys were injured.

**Rush Guardsmen to Scene**  
Shortly after McCann was killed a squad of national guardsmen was rushed to the scene. Augmented by the local force and a large squad of state police they drove the rioters from the negro section. The negro section was roped off after quiet was restored and a heavy guard thrown round it. Mayor McDowell announced at midnight that he had the situation under control. The streets were cleared of the rioters and white men were forbidden to enter the colored streets.

**Patrol Streets**  
Youngstown, O. July 26.—Soldiers of the Ohio National Guard were patrolling the downtown district of Youngstown tonight as a precaution against renewal of race rioting which broke out here this afternoon between 20 guardsmen and a score or more of negroes. During the rioting one negro was severely injured and several others badly beaten.

The guard patrolmen carried no guns but were armed with policemen's clubs and were under orders to allow neither guardsmen or negroes to congregate on the streets. Up until a late hour there had been no further disturbances. Following this afternoon's outbreak the feeling among white residents against negroes reached a high pitch. Soldiers maintain that for some time past the negroes have been persistently insulting members of the units stationed here and the resentment of the militiamen finally became uncontrolled this afternoon. A crowd of white citizens started to participate on the side of the guardsmen when a cordon of police stopped the encounter.

**LEWIS THINKS SECOND  
CALL WILL COME OCT. 1**  
CHICAGO, July 26.—There will be a second call for new men for the National army October 1, in the opinion of United States Senator James Hamilton Lewis, Democratic whip who conferred today with army officers stationed at Fort Sheridan on plans to keep the second officers training camp there.

"I think that on October 1, the secretary of war or some official will announce to the second group of men the second army, to begin preparations for a call to service," he said. "Just how soon after that they will be called to the camps is problematical, depending probably on the speed with which the first unit is trained. I expect to see the men of the first unit called to their training camps within thirty days."

**SINK U. S. SAILING SHIP.**  
London, July 26.—The American sailing vessel Augustus Welt was sunk last Saturday. The crew were saved. No details of the sinking have been received.

The Augustus Welt was a wooden vessel of 1,221 tons.

**TWO ITALIAN SHIPS SUNK.**  
Rome, July 26.—Two Italian steamers were sunk and one small sailing vessel was damaged during the week ending midnight July 22, says an official announcement issued yesterday. Five hundred and ninety-three vessels with a gross tonnage of 389,815 arrived and 550 of a tonnage of 403,450 left port.

## EAGERLY AWAIT REPORTS OF SELECTION BOARDS

Will Give First Definite Information As To Rejections

All Available Statistics Indicate a Probable Rejection of One in Every Four for Physical Disability—Expect Peculiar Results

Washington, July 26.—Reports of the first selection boards to fill their quotas for the selective draft army are eagerly awaited by Washington officials because they will give the first definite information as to the probable percentage of rejections to be expected among the ten million registrants for physical reasons or for dependents.

**Will Vary Greatly**  
All available statistics indicate a probable rejection of one in every four for physical disability. In particular localities this will vary greatly, but the average for the whole country is expected to be between 25 and 30 per cent. There is no available data as to dependents, however, or as to how many must be excused under industrial exemptions.

Peculiar results are expected in some districts for the lowest rejection and exemption rates are expected in well-to-do communities, such as the suburbs of large cities where men of comfortable incomes make their homes.

Sons of such men, it is suggested, have better food, better care and better surroundings than factory hands and should be in better physical condition.

As a class such young men could hardly be regarded as indispensible in their civil, business or industrial capacities, and dependents probably will not free as many of them from service as of most other classes.

**Exemptions Will Run High**  
In factory towns, the rejection rate for physical disability probably will be high. The men are confined six days a week at their machines which undoubtedly has affected their physical condition. Virtually every married man of those registered in these places is the sole support of his wife and children and such men cannot be taken. Also, if the industry in which they are engaged is vital to the carrying on of the war industrial exemptions will run high.

Only reports from selection and district boards in typical communities, however, can show exactly what is to be expected.

Roughly the war department has estimated that two men must be called for every soldier expected, but they realize that the returns may tell a far different story.

**CHARGE STUDENT  
SPREAD FALSE RUMORS**

ST. LOUIS, Mo., July 26.—Louis Frumess, a medical student was arrested this afternoon by agents of the federal department of justice on the charge that he had stated he had received a letter from Washington University hospital unit had been killed and another member of the unit had been injured.

Department of justice officers have issued a warning against the spreading rumors of disaster to the American expeditionary force saying there had been widespread rumors in St. Louis that certain American contingents had been destroyed by enemy submarines or other agencies.

As to the sources of the new taxes, sentiment in the committee apparently is tending toward securing the bulk of the increase from war excess profits and incomes.

Several war department officials will appear tomorrow before the finance committee to explain their new estimates.

**Some of the Items**  
The largest single item in the department's estimate is \$2,468,613,000 for armament of fortifications. Others include:

Pay ..... \$715,828,440  
Transportation ..... 450,490,305  
Clothing and camp equipment ..... 317,506,097  
Subsistence ..... 329,672,218  
Automatic machine rifles ..... 170,277,000  
Medical supplies and hospitals ..... 100,026,000  
Horses ..... 51,751,466  
Signal service ..... 3,000,000  
Quartermaster's dept., barracks and quarters ..... 163,917,925  
Civilian training camps ..... 2,119,000  
Ordnance department ..... 104,360,000  
Ordnance stores ammunition ..... 39,520,000  
Ordnance stores supplies ..... 70,000,000  
Armored motor cars ..... 21,500,000  
Submarine mines ..... 700,000

The estimates include an appropriation of \$1,500,000 for the Rock Island, Ill., arsenal.

The new war estimates will increase materially the technical labor or required of congress and probably greatly prolong the session.

**TWO THOUSAND TAKE  
PART IN SERVICES**

St. Anne, Ill., July 26.—Approximately 2,000 pilgrims from various parts of northeastern Illinois and western Indiana participated here today in "reast day" services at the thirty first annual pilgrimage to the Shrine of St. Anne.

The feast day was the conclusion of a Novena starting June 28.

**RECORD EARTHQUAKE.**  
Cleveland, O., July 26.—An earthquake lasting half an hour was recorded tonight on the seismograph at St. Ignatius College. The observer in charge was unable to estimate the probable location of the disturbance but believes it several thousand miles distant.

**CONDEMNED DANCER TO DEATH.**  
Paris, July 25.—A military court today condemned to death a dancer known as Mata Hari, who before her marriage was Marguerite Zell. She was born in the Dutch Indies and claims Dutch nationality.

## WAR BUDGET MAY REACH TEN BILLION

War Department Estimates  
Alone Call for More  
Than Five Billion

## EXPECT MORE TODAY

Other Departments to Report  
Needs—May Ask Two Billion  
For Loan Fund

## TO EXPLAIN ESTIMATES

WASHINGTON July 26.—The new war budget to carry the government thru to next July and to cover additional credits to the allies promises to exceed eight billion dollars and may amount of ten billion dollars.

**Receive War Office Estimates**  
War department estimates sent to congress today call for new appropriations of \$5,289,636,000 for that branch of the military establishment alone. Estimates totalling another \$1,000,000,000 or more are expected tomorrow when the other departments report their needs and in addition Secretary McAdoo has indicated that before the year is out congress will be asked for a \$2,000,000,000 appropriation to increase the fund available for loans abroad.

As soon as the departmental reports are in the appropriations committees of congress will go to work on an immediate budget which probably will total in the neighborhood of \$7,000,000,000. Meantime the senate finance committee which has the war tax bill in charge will meet tomorrow to consider what part of the new expenditures is to be provided by taxation and on what commodities the new levies are to fall. The committee hopes to have a revised bill ready early next week.

**Covers Expected Deficiencies**  
The gross estimates submitted by the war department today totalled \$5,917,878,347, but that covered all existing and expected deficiencies in the department funds including upwards of \$640,000,000 already appropriated for the aviation program. This later item will not be included in the budget, but congress will have to provide revenues to meet it since it was not on the ledger when the war tax bill was framed.

Committee sentiment tonight seemed to be in favor of increasing the \$1,670,570,000 war tax bill only to about \$2,000,000,000 with authorization both for a new bond issue, possibly at a higher interest rate and in serial form, and for issuance of treasury certificates of indebtedness.

Secretary McAdoo is said to favor a much larger levy of taxes and a few committee members favor increasing the bill's total by \$1,000,000,000 or at least to \$2,225,000,000.

As to the sources of the new taxes, sentiment in the committee apparently is tending toward securing the bulk of the increase from war excess profits and incomes.

Several war department officials will appear tomorrow before the finance committee to explain their new estimates.

**Some of the Items**  
The largest single item in the department's estimate is \$2,468,613,000 for armament of fortifications. Others include:

Pay ..... \$715,828,440

Paris, July 25.—A military court today condemned to death a dancer known as Mata Hari, who before her marriage was Marguerite Zell. She was born in the Dutch Indies and claims Dutch nationality.

## TO VOTE ON NATIONAL PROHIBITION WEDNESDAY

Senate Agrees By Unanimous  
Consent To Decide Issue

Foes of Prohibition Secure Agreement for Addition of a proviso Requiring States to Act Within Six Years on Amendment if Submitted to Them.

Washington, July 26.—National prohibition will be voted on in the senate next Wednesday. By unanimous consent it was agreed to take up Monday Senator Sheppard's resolution for a national prohibition amendment to the constitution and to dispose of it by Wednesday night.

**Foes Consent to Vote.**  
Foes of prohibition consented to the vote in order to clear the resolution from the calendar, transmit it to the house and perhaps shift further agitation on the subject from congress to the states.

They secured an agreement, however, for addition of a proviso requiring the states to act within six years on the constitutional amendment, is submitted to them.

The vote in the senate probably will be extremely close. Adoption would require two thirds of the senators present. Senator Sheppard predicted tonight an affirmative vote of 65 or 66 votes, just enough to approve the resolution which would then go to the house subject to a similar vote. Ratification of the amendment would require affirmative action by three fourths of the 48 states. The resolution provides that:

**Resolution's Provision.**  
"The manufacture, sale or transportation of intoxicating liquors within the importation thereof into, or the exportation thereof from, the United States and all territory subject to the jurisdiction thereof for beverage purposes is hereby prohibited. The congress shall have power to enforce this article by appropriate legislation."

Senator Penrose, who recently has objected to efforts to secure a vote said tonight he would vote and speak against the resolution but had no desire to be obstructive.

"I don't believe any senator wants to make any long speech," he said.

Senator Underwood also announced he was opposed to the resolution.

## BELIEVE WAR MUST END THRU DIPLOMACY

German Prisoners in England Give Views to Representative of the Associated Press.

London, July 12.—(By mail)—Germany's dream of world conquest has been shattered and the belief among all classes there now is that the war must end thru diplomacy rather than by a brilliant victory, according to the German prisoners in England.

A representative of the Associated Press who has just returned here after a visit to the large internment camp at Dorchester, where approximately 1,900 German prisoners are quartered, is enabled to present many interesting sidelights on the German viewpoint as represented by men of all types who have fought with the German forces on land and sea and in the air. These may be summarized as follows:

Germany having held out thus far, she is prepared to hold out to the end.

The economic situation in Germany is not as bad as it has been represented either by the belligerent or neutral press. Contrary to reports, there is no visible shortage of materials actually needed for the prosecution of the war.

America's entry into the war will prolong rather than shorten it.

The United States being essentially a commercial nation she cannot make her great manpower felt soon enough to change the course of events.

The submarines are doing all that was expected of them.

There is a surprising lack of concern manifested by the prisoners because of the United States being arrayed against their country.

## GENERAL CROWDER REPLIES TO INQUIRIES

TRENTON, N. J., July 26.—According to the interpretation placed by military authorities in a letter from Provost Marshal General Crowder in reply to inquiries, drafted men who have married or who shall marry before they are called for examination, will not have to serve in the conscript army if their brides are dependent upon them.

The following paragraph of the provost marshal's letter is cited by military authorities:

"In reference to marriage after June 5, 1917, it would seem in like manner that the claim of discharge because of dependency should be determined at the date of calling. If the person called is then a married man and has a wife at that time depending on his labor in the sense in which that term is used the rules and regulations, it would seem that he could be discharged from the service if in the opinion of the board the claim is substantiated.

## NO FRENCH SHIPS SUNK.

Paris, July 26.—During the week ending midnight July 22 not a single French vessel either over or under 1600 tons was lost, according to an official statement issued yesterday. Six French merchantmen were attacked unsuccessfully during that time by submarines. Ships of all nationalities, numbering 1,063 entered port and 937 departed.

## NEW YORK LOSES ITS LAST HORSE CAR

NEW YORK, July 26.—The last horse car has disappeared from the streets of New York. Such announcements have been made before but afterward one or more of these ancient vehicles would be discovered bumping its way thru some cross-town thoroughfare to keep a street railway franchise from becoming defunct.

Today a single horse car operating on the Elcecker street line made its last journey, the directors of the New York Railways company having decided to abandon the line and was officially notified that no other horse car in all the city now survived.

## NO RECURRENCE OF VIOLENCE IN CAPITAL

Peace Authorities Seem to  
Have Situation Well in Hand

Head of Springfield Street Railway System Flatly Refuses to Receive a Committee of Strikers—Armed Officers Riding on Every Trip With Street Cars.

**BULLETIN.**  
SPRINGFIELD, Ill., July 26.—Disorders attending the strike of street railway men here broke out again at 9:30 tonight when two cars were attacked by strike sympathizers in the south part of the city. The motorman on one car, James Kelly, of Grand Rapids, Mich., was struck in the head by a brick thrown from the mob, but was not seriously injured. The windows in the cars were broken out, but no further damage was done.

Three arrests were made by police and sheriff's deputies.

Springfield, Ill., July 26.—A. D. Mackie, general manager of the Springfield Consolidated Railway company tonight flatly refused to alter his determination not to receive a committee of striking street car men who walked out late yesterday afternoon demanding recognition of their union and an increase in wages.

**Mackie Makes Statement**  
"One hundred and five of my men have remained loyal and are satisfied with their wages and working conditions," said Mr. Mackie. "I have no further interest in the few who left their work and are trying to foment trouble. So far as I am concerned the strike is over."

Strike leaders stated their ranks were being augmented by recruits from the company's force, and expressed confidence in their ability to bring Mr. Mackie to terms. They declared strike breakers were being imported from other places.

Peace authorities appeared to have the situation well in hand tonight. Armed officers were riding on every trip with the street cars and persons in the downtown district were kept moving. No reports of violence of any sort had been received.

Jerry Burnette of Peoria, organizer of the strike, who was placed under arrest early this morning on a warrant charging him with inciting men to destroy property of the car company, was released on \$5,000 bond at noon and immediately reassumed charge of the strike.

**Central Body Supports Strike**  
T. K. Ball, president of the Springfield Federation of Labor, appeared before a meeting of the strikers today and assured them of the support of the central body so long as they refrained from violence. The meeting then passed resolutions condemning all forms of sabotage.

Later in the day a special committee outlined the situation of the strikers and made public a copy of the demands, said Mr. Mackie, general manager of the Springfield Consolidated Railway company, and to have been ignored by him.

The demands were:

A nine hour day with a ten hour limit.

Thirty cents an hour for employees less than a year in the service; 35 cents an hour for all those employed more than a year, and a ten per cent increase for barn employees.

Reinstatement of employees discharged since July 1, 1917.

Form Federal Board of Farm Organizations

WASHINGTON, July 26.—Agricultural leaders from 24 states, meeting here today formed the federal board of farm organizations "to co-ordinate the work of the farmer greater influence and recognition in national affairs."

Headquarters will be in Washington to keep farmers advised of legislation affecting their interests. The permanent organization will be perfected at the first regular meeting here next January.

## WEATHER INDICATIONS AND TEMPERATURES

Illinois: Generally fair and continued warm Friday and Saturday except cooler near Lake Michigan Friday.

**Temperatures**  
The current, maximum and minimum temperatures as recorded Thursday were:

Jacksonville ..... 76 88 72  
Boston ..... 80 90 68  
Buffalo ..... 76 78 68  
New York ..... 76 84 70  
New Orleans ..... 80 90 78  
Chicago ..... 83 86 72  
Detroit ..... 86 90 73  
Omaha ..... 90 94 74  
Minneapolis ..... 88 94 74  
Helena ..... 96 96 54  
San Francisco ..... 64 66 54  
Winnipeg ..... 78 84 54

## PUT DEATH PENALTY IN FORCE IN RUSSIA

Policy of Blood and  
Iron Bodes ill For  
Refractory Troops

## BLOW DIVISION TO PIECES

Gen. Korniloff Takes Drastic  
Action of Having Division of  
Cowards Shot To Pieces

## CONTINUE TO GIVE WAY

The government's policy of blood and iron is to be carried out along lines which bodes ill for the seditious troops along the eastern front, and those persons within the country trying to nullify the good work that has followed in the wake of the revolution. Capital punishment, abolished with the advent of the new government, again has been put into force at the demand of the military commanders at the front, who now will be able to assemble field court martials and put to death summarily traitors in the army. General Korniloff, commander of the forces in Galicia, whose disaffection and desertions have wrought havoc in the Russian morale, was the most insistent of the military chiefs in calling for a free hand to check the refractory troops, declaring that the death penalty was the only means of saving the army.

**Blows Up Division of Army.**  
Prior to the acquiescence of the government, General Korniloff is reported to have taken the drastic step of having a division of fleeing cowards of the eleven army blown to pieces by their faithful former brothers-in-arms.

Meanwhile, pending the tightening of the reins of repression, the Russian troops everywhere in Galicia from the region around Tarnopol southward to the southwestern Bukovina border, are continuing to give way with relatively little fighting before the Germans and Austro-Hungarians.

The important towns of Buczac, Tlumacz, Otylnia and Delatyn have been captured by the Teutonic allies, and the Russians also have been driven from the Tartar Pass in the Carpathians and their positions in the Karkibaba sector, to the south-east.

The withdrawal of the Russians in the latter regions apparently paved the way for the Teutons to re-enter Bukovina, which, if accomplished possibly would make less stable the Russo-Romanian line running thru Moldavia to where the Danube bends eastward. Already Berlin reports the Germans debauching from the Tartar Pass to be headed in the direction of Czernowitz, capital of Bukovina.

The Cleveland Plaindealer suggests that Jack Spratt and his equally well known wife are models of efficiency when considered in connection with the Hoover program of food control.

## IMPORTANT TOPICS

**ON THE LINKS.**  
Now that Edward N. Hurley of Chicago has been appointed to the chairmanship of the shipping board in place of Mr. Denman, Chicago people are understanding what the visit of Joseph Tumulty, the president's private secretary, meant recently when he spent a week end with Mr. Hurley at Wheaton. It was mentioned in the newspapers at the time that Mr. Tumulty and Mr. Hurley played golf. Their conversation on the links must have turned to important subjects.

## THOSE GARDEN INCREASES.

The man who raised garden vegetables and peddled them from door to door is almost out of business this year, for everywhere he goes he finds people with their own garden plots. This applies to thousands of people who never before have planted even lettuce and radishes in a garden, and now that they have tasted the deliciousness of home grown vegetables it is easy to predict that the garden growing plans so splendidly developed this year are deep-rooted and will remain even after the war days are over.

Statistics gathered by the emergency food garden commission show that the gain in garden acreage this year is 1,175,000. These interesting figures go on to show that the value of the home grown garden crop in 1917 will aggregate the goodly sum of \$350,000,000. This movement certainly is well worth while as we consider that the U. S. daily war expense is already running into millions and these preparations are only well begun.

## COAL PRICES STILL UNSETTLED.

Reports in the dispatches this morning indicate that the state council of defense is in earnest in the demand made upon coal operators in Illinois for lower price. It's a little hard for the public to understand how Samuel Insull as chairman of the state council can be very severe in his demands on Francis Peabody of the coal committee of the national council of defense, since Mr. Insull and Mr. Peabody are so closely related in business enterprises. Some of

the coal operators have suggested that if a low price is insisted on in this state that they will naturally ship their coal to other states where the market is higher and that thus Illinois will find itself very short in coal supply.

This statement is very much in accord with the course of "bluffing" that many of the operators have been following up to this time. The state council of defense with the backing of Governor Lowden has the remedy for excessive prices at hand if they choose to use that remedy.

## ENGLAND ASKS FOR ROOSEVELT.

Maurice Hewlett, famous as an English poet and writer, has suggested that a mission headed by Colonel Roosevelt should be sent to Great Britain to give the English people a clear understanding of America's ideals in this war. Mr. Hewlett believes that in some parts of the U. S. there is a lurking suspicion of England's motives and that the same is true in parts of England with reference to the U. S. There are some residents in both countries who are not able to forget past relationships of a hundred years or more.

Colonel Roosevelt can certainly voice the American ideals and his type of eloquence would leave the English no room for doubt. The colonel should be given something to do in this war and the U. S. should have the advantage of the great service that he can perform. Perhaps the Hewlett suggestion is worth while. But this mere spreading of the gospel of the American spirit would appeal to the former president as being somewhat tame.

## GREAT IS THE FARMER.

According to the plans of W. E. Hall, national director of the U. S. boys' working reserve, boys who have shown their patriotism by remaining on the farms are to be rewarded with federal badges. This honor is due these workers in this very important branch of industry and gives point to the further thought that there is nothing too good for the farmer. In these latter years he has come to be looked upon as the most necessary business man in the country—a business man whose industry and vision must both be great if he succeeds.

Legislators of the states, congressmen and senators at Washington, all bow in obedience to the farmer and in all the discussion of industry control that has been heard in Washington in these days, nothing has been said detrimental to the interests of farming. They have talked about special taxes for every other line of business, but the farmer has been immune. Once people were inclined to look down on the farmer as merely "a rube," a rural worker, but now they all look up to him and take off their hats.

## HOYNE SEES THE LIGHT

They have a strange situation in Chicago now, where Mayor Thompson, along with the village presidents in Cook county, has received official warning from the State's attorney that unless saloons are closed on Sunday the executive officers

of the city will be prosecuted for malfeasance in office. It was only a few months ago that the state's attorney refused to prosecute cases in Chicago where arrests had been made under orders from the mayor of saloon-keepers who kept their places open on Sunday.

The state's attorney claimed the evidence was not sufficient. Now he has changed his point of view and intends to take the Sunday closing program for the whole county in hand. Hoyne is a vigorous, forceful, fighting state's attorney and can accomplish a great deal along this line of law observance if he wants to. It looks now as if he had waited for what he considered not only a favorable time for securing law enforcement but also the opportunity for a desired amount of personal advertising.

## JUST BEGINNING TO FIGHT

The national committee of patriotic and defense societies has issued a statement that "talk, indecision, bickering and delays are the reasons why America is not winning the war." Up to this time the people had the feeling that the U. S. had not begun to fight and so could not be expected to win a contest into which we had hardly entered. Some of the doings at Washington are open to criticism but it does not seem that unfavorable comment at this time from this committee of patriotic and defense societies is likely to have any good effect.

The committee, however, makes the reasonable demand that there be less of newspaper censorship at Washington and that all the facts about any disasters which come shall be told. Truth telling along this line would have the effect of thoroughly awakening the public as nothing else can do and would certainly create patriotic enthusiasm in any section of the country where such a spirit is now lacking.

## A GERMAN LOYAL TO U. S.

There are some German papers in the U. S. whose editors have shown a pro-German attitude in these days of peril and who are rightly subjected to the charge of disloyalty. Not in this class is Fred J. Kern of Belleville, formerly chairman of the Illinois state board of administration. Mr. Kern is German in appearance, accent and heart, but he does not hesitate now to put America first and to state plainly that the Kaiser is wrong and that the U. S. had no honorable course but to accept the German challenge of war. In a recent editorial Mr. Kern had these loyal words:

"Germany chose war with the United States and we accepted the dire and sad alternative after prolonged pleading and delay for peaceful settlement of our differences.

"There is only one honorable course open for Germans and their children in America to pursue, and that is to be stubbornly and unmistakably loyal to the flag of the United States.

"Allowing for no higher motive of patriotism and devotion, permit us to say, once for all, that any other course is futile, for nothing, in vain, absurd, positively bone-headed, suicidal.

"The overwhelming majority of the American people are for the American government in the present war, forced on this country by the German Kaiser, and they can be relied upon to support the American government to the last dollar and the last man and the last ditch.

"This country was patient until patience ceased to be a virtue."

## FUEL AND TRANSPORTATION

(From the Minneapolis Tribune)  
The importance of government supervision of the production and distribution of necessities is beginning to appear quite as prominently in the field of fuel supply as in that of food supply. While the government, thru the Federal Trade Commission, has made very decided progress in compelling mine owners to accept reasonable prices for their products, there remains the even more serious problem of distribution of the coal output. Both problems call for the exercise of government authority for the protection of public interest.

It required the stern threat of government seizure of mines to bring the mine owners to reasonable terms. This matter of the price of coal at the mines has been a subject of more or less attention on the part of the government for the past fifteen years. As long ago as October, 1900, an increase of wages to miners was made the excuse for an advance in the price of coal to the amount of 23 cents a ton when the increase in cost of production was only 7 1/2 cents. Again, in 1912, when another increase in wages raised the cost of production 9 cents per ton, the selling price went up 25 cents. The recent advance of from 50 to 100 per cent may have some slight foundation in the increase of cost of production, although this increase has not been due in large part to the increase in wages. There was, however, such slight foundation for it that 118 mining companies are under indictment for extortion, and the warning conveyed by the secretary of the interior and members of the Federal Trade commission has produced, to some degree at least, the desired effect.

## THE CHEERFUL WARRIOR

From the Seattle Post-Intelligencer  
Somebody at Washington has a helpful suggestion to offer about war. It is that the men who engage in it reserve, so far as possible, a cheerful, optimistic mood. There is no use being lugubrious or doleful about it, because that interferes with final success. So now they are planning sports for the boys and cheerful songs for them to sing. There is to be no mournful and dispiriting music in the soldiers' song book now in preparation. Something cheerful and enlivening will be furnished to keep the soldier's mind from his depressing business. Left to choose for himself, the

soldier generally avoids the melancholy ballads. "When Johnny Comes Marching Home" is certainly far from being a dirge, and the "Old Time in the Old Town Tonight" indicated an optimistic, forward-looking view of matters. The American soldier is inclined to be cheerful about his work if the public will allow it.

There is good reason why the tremolo stop should not be pulled out in war times. We go to war, not because we desire it, but because we must. It is a duty that must be accomplished, and a good heart helps it along.

There is no nutrition in going to war in a lugubrious mood. It is a great honor to wear the uniform and represent the power and authority of a great nation. Whether a man survives or dies, his name will be upon the honor roll of his country to the end of time.

War is a bit of urgent business that simply must be attended to. Meanwhile be cheerful.

## THE KAISER'S WILLINGNESS

We have been hearing considerable of late about Germany's "willingness" to go back to the status quo before the war.

Of course, Germany is "willing." She has been caught with the goods.

In an article entitled "The Latest Propaganda," J. Frank Davis of The Vigilante, shows graphically exactly what this "willingness" on Germany's part means. Says Mr. Davis:

"An individual in a law-abiding community (and the world is a great community which thought, up to August, 1914, that it was living under civilized law) plans and commits an assault, calculatingly, coldly, mercilessly. Pursued, he runs madly up and down the streets, shooting in every direction, until it takes the entire police force of the city to arrest him. Arraigned before the court, he says:

"I suggest, your honor, that matters be allowed to return to the status quo. I will go back to my home and stop rioting, for the present, and you will let me keep my pistols and cartridges. I may need them later. And, as regards the damage I did, of course I do not care to pay for it. I suggest, as a compromise, that you take up a collection here in the court to make it good."

"What would society reply to such an individual?

"Would his argument prevent a jury of his peers from convicting him? Would it prevent a judge from sentencing him to a proper punishment?"

"It might get him turned over to an alienist instead of a prison warden, but whether he were put in jail or an asylum, society would assure itself that opportunity to repeat his offense were placed securely out of his reach. Society would not do this in revenge; but as a measure of self-protection."

Rippling Rhymes  
By WALT MASON

In the Hills  
I write this rhyme 'mid scenes sublime,  
in far famed Colorado,  
where hills so high they scrape the sky  
throw out a cooling shadow.  
Long's Peak uplifts its shining drifts  
of snow that knows no melting,  
I'm cool as far while where you are  
heat rays are fiercely pelting.  
The crystal rills that seam the hills  
attract my fat attention, and aspens  
quake by lonely lake too beautiful  
to mention. Here Nature spent her  
last red cent, to make a scene  
entrancing, with crags and woods  
and other goods, and mountain  
torments bawling. And tourists roam,  
far, far from home, upon this scene  
elvian, they're swarming o'er the  
rocky floor, and jar my startled vision.  
For they're attired in garb  
all-fired, in garment plainly dippy;  
in sideshow rags they scale the  
crags and toil up pathways slippery.  
It seems two shames that men and  
dames when they go for an outing,  
must cause distress by wearing dress  
so loud it's fairly shouting. The  
mountains blush when tourists rush  
along the pathways ratty, in rags  
that scare the wolf and bear, and  
drive the wood-chucks nutty.

## THIS DATE IN HISTORY

July 27, 1847—Lincoln made a speech in Congress supporting the candidacy of General Taylor for President.

## WILL BORE FOR OIL IN PIKE COUNTY

The Pike County Democrat states that a representative of the Pennsylvania Oil company has been in the vicinity of Pittsfield for several weeks and that leases on more than 3,100 acres of land have been secured. A rig for drilling has been shipped and work will be commenced in the vicinity of New Hartford at an early date. The existence of gas in that locality has been known for years past and a number of Pike county farm homes are lighted with natural gas. It is said that in a well near New Hartford some years ago that oil was discovered, but it was of such heavy quality that it could not be pumped. The oil men believe that any oil they find will be at a depth of about 800 feet.

## TO CREAMERY CONVENTION

L. T. Polter, manager of the Jacksonville Creamery Co., was in Peoria Thursday attending a convention of the Illinois Butter Makers' Improvement association.

## MISS AYERS BECOMES BRIDE OF MR. EATON

Prominent Jacksonville Young Woman Will go to Eastern City—Impressive Ceremony Thursday Night With Limited Company Present.

There have been larger marriage events in Jacksonville but none more impressive than that of Miss Margaret Ayers of this city and Mr. Louis Franklin Eaton of Brockton, Mass. The ceremony was said Thursday night at 7:30 o'clock at the home of the bride's parents, Mr. and Mrs. Walter Ayers, 906 West State street. The company included only relatives and immediate friends.

It had been the intention of these young people to have their wedding in October but last Friday came a telegram from Mr. Eaton that the only leave of absence he could secure from his post in the Charleston navy yard would be the remaining days of this month. There were more telegrams and then quickly came the decision to change the wedding date from October to July 26. Yet with this hurrying of plans there was nothing lacking to mar the perfectness of this ceremony. Had the wedding occurred next fall instead of the present time almost the same simplicity would have dominated for the wedding details were characteristic of the bride.

At 7:30 o'clock as Mrs. Helen Ayers Bullard played the wedding music from Lohengrin the wedding party stood before Rev. R. B. Wilson, pastor of State Street church. Miss Gertrude Ayers, sister of the bride was her maid of honor and Mr. Eaton was attended by Mr. William J. Morden of Chicago as his best man. The Episcopal service was used and the sacred words were never more impressively spoken. The bride was given away by her father, Mr. Walter Ayers, and at the conclusion of the ceremony the guests came forward quickly to extend their words of congratulation.

The bride's gown was of white satin made en train and she wore a sweeping veil of tulle with wreath of orange blossoms. Her gorgeous shower bouquet was of lilies of the valley and orchids. Miss Gertrude Ayers wore a turquoise blue silk gown made in empire style and trimmed with silver thread lace. Her shower bouquet was of Ward roses and orchids. A wedding supper was served by Hood & Larson to the guests seated in an informal way in the various rooms. The decorations were of a simple kind, with garden flowers and the effects were those which come from an artistic scene and the generous use of sweet peas, asparagus ferns, corn flowers and gladioli.

Mr. and Mrs. Eaton left on the night train for Chicago and will go east almost immediately as Mr. Eaton's leave of absence ends Tuesday. This July bride so happily married is the elder daughter of Mr. and Mrs. Walter Ayers and her home has always been in Jacksonville altho she has been away much of the time during the latter years. After finishing Whipple academy she attended Monticello seminary and then went to Wellesley college where she graduated. It was during the college days that the friendship with Mr. Eaton began, as he was then a student at the nearby college of Amherst.

Mr. Eaton, whose family has long been prominent in Brockton, specialized in scientific lines in his college course. The past year he has been an instructor at Harvard in radio work and was recently appointed in charge of the radio and telegraphic work at the Charleston navy yard. His duties there are of such a kind that, as already indicated, leave of absence was difficult to secure. And with the prospect still more active part in the great war that the U. S. must take, the importance of his duties will grow.

Mrs. Eaton has individual charm of person and character which have given her a large place in the hearts of many Jacksonville people and she will go to an eastern home carrying with her their earnest good wishes for happiness all thru the years to come. Altho the wedding announcement was not made until early this week a large number of gifts were received to attest the interest and good will of friends and relatives. Out of town guests here for the wedding were Miss Constance Haggood of Boston, Mass., Miss Katherine Schmidt of Chicago, and Mr. and Mrs. Oliver Williams of Quincy. The young women mentioned were Wellesley college friends of Mrs. Eaton.

## ELKS' CONVENTION THE LARGEST EVER HELD

Fourteen Thousand Elks and Their Wives filled Boston During Convention Week, Local Delegate Says

Harry P. Obermeyer has returned from Boston, Mass., where he attended the annual Elks' convention as a delegate from Jacksonville Lodge No. 682, B. P. O. E. The 1917 convention was by all odds the largest ever held in America, says Mr. Obermeyer. Lasting from July 7 to 14 it was the first in the history of the order to have a week's duration. There were 1,738 delegates sitting in convention and the Elks and their wives who came to Boston numbered fourteen thousand. The people of Boston were most liberal in their hospitality and the entertainment offered was noted alike for variety and abundance.

Mr. Obermeyer was in New York city the day of the draft. Patriotic feeling ran high, said he, and enthusiastic demonstrations were made in many parts of the city. On his return Mr. Obermeyer visited Washington, Baltimore and Pittsburgh, Pa.

Miss Katherine Magnuson, of Berkeley, Cal., is one of the few women members of the American Society of Chemists.

## Mrs. F. C. Noyes Hostess to Friends of Daughter

Mrs. F. C. Noyes entertained Wednesday at her home on Grove street for her daughter, Ella Louise Noyes, who is spending the summer vacation at her home here. The hours from 3 to 5 were spent in a delightful social manner and elegant refreshments were served. The guest list included Mrs. W. H. Weirich, Misses Anne Stevenson, Nellie Barr, Mabel Cowdin, Florence McKnight and Martha Coale. Entertained for

## Mrs. Hembrough

Miss Alma Hembrough of southeast of Jacksonville entertained Wednesday afternoon at her home from 2 to 5 in honor of Mrs. Cydla Hembrough, nee Miss Hildegarde Rose. The entertainment was in the form of a miscellaneous shower and Mrs. Hembrough was the recipient of many beautiful and useful gifts. There were about twenty five guests present. The living room of the Hembrough home was decorated daintily with sweet peas and the dining room with nasturtiums. Refreshments were served.

## Mrs. Burmeister Hostess to Gleaners

The Gleaners' Sunday school class of Ebenezer M. E. church met with Mrs. Charles Burmeister Wednesday afternoon and after a short program a social hour was enjoyed and refreshments were served. The program was begun by the singing of "America" by the class. Mrs. Elmer Henderson conducted a questionnaire and Miss Luella Blackburn read a class narrative in newspaper form. The next meeting of the class will be held at the home of Miss Elsie Cully.

## Class Gives Musical Program at Northminster

A pleasing musical program was given at Northminster church Thursday evening, forming part of a Red Cross benefit entertainment under auspices of the girls of the class taught by Mrs. Naomi Martis. After the program, which consisted of a number of well given musical and literary numbers, refreshments of ice cream and cake were served. The program numbers follow: Piano duet—Miss Antoinette Goveia and Mrs. Marks.

Reading—Miss Marian DePew.  
Reading—Miss Daisy Patterson.  
Piano solo—Miss Laura Fernandez.  
Vocal solo—Ernest Fernandes.  
Solo—Miss Vivian Vieira.  
Reading—Miss Helen DeSilva.  
Duet—Misses Agatha Jones and Helen Hamm.  
Piano duet—Miss Helen Ferreira.  
Dialogue—Misses Margaret, Vivian and Helen DeSilva.  
Solo—Miss Lillian Sardinha.  
Duet—Harland Moses and Miss Melba Jones.

## PUTS CHECK ON WAR PROFITS

Stockholm, July.—The operations of foreign "goulish barons," as the war profiteers are called here, have been pretty effectually checked by a law that recently has gone into effect. Foreigners may not now buy wares in Sweden for export without special license in each individual case. They are required to give security for the payment of taxes and are placed under supervision.

## FIRST MORGAN CO. MEN BEFORE EXEMPTION BOARD

List of Two Hundred Forty Two  
Will Probably be Summoned—  
Full Instructions Not Yet Received

The following is the list of 242 Morgan county registered men who will in all probability be called to appear before the board of exemption. The Morgan county quota is 121 and unless some change in the rule is announced, the board will summon a number equal to 200 per cent of the quota. So many requests have been made for the names of those in this list of 242 that they are printed at this time, although the exemption board does not yet have positive knowledge as to the number to be summoned.

Stated assembly of Jacksonville council, No. 5 R. & S. M., this evening.  
Julius G. Strawn T. I. M.  
John R. Phillips, Secretary.

**GIRL IS HOLDER OF BRONZE MEDAL**  
Copenhagen, July.—Victoria Sanz of Meran, an eighteen-year-old Tyrolean girl who has been fighting in the trenches on the Italian front for the past two years, was seriously wounded in battle a few days ago, says a dispatch to a Berlin newspaper. She was operated on and later pronounced out of danger, although it was said she would be incapacitated for further service. The girl is the holder of a bronze medal for bravery and is on the list for further decoration.

**FISH AND CHICKEN FRY**  
Given by the Concord M. E. Ladies' Aid, August 9th, in the basement of church.

**MUST INCREASE OUTPUT OF SHIPS**  
Birmingham, England, July.—Mr. Kellaway, Parliamentary Secretary of the Minister of Munitions, after explaining the imperative need of labor dilution, told a gathering of munition workers that this country had lost over 500 ships, most of them of heavy tonnage, in six months. He said that unless a good part of that loss was made good by increasing the output of new ships the country must inevitably be starved into a shameful peace.

Miss Nellie E. Paul of Beards-town has completed a pleasant visit with her sister, Miss Ethel E. Paul, of the Central Union Telephone Co. office. Miss Paul has been visiting in Versailles and was on her way homeward.

## SUPPLYING U. S. ARMY IS GIGANTIC TASK

Manufacturing and Transporting of Goods Will be Felt in Every Business Channel—Will Mean Prosperity.

Washington July 26.—Buying the things an army must have, getting them to the training camps and, later on, putting them across the sea will be the biggest feat of merchandising Uncle Sam ever attempted.

Consumption of food, clothing, bedding, hardware and other necessities by an army of 1,000,000 is roughly calculated to be three times as great as for the same number of men in peaceful occupations.

Aside from arms and ammunition, 561 different articles must be supplied to equip an army. The government is rapidly completing the purchase of enough items to supply 43,000 officers, 1,012,270 enlisted men and 936 civilians for a year.

Manufacturing and transporting this mountain of goods will be felt in every business channel. It means prosperity, but also higher prices. Everything men use in ordinary life, extreme luxuries, will be drawn upon. Women are affected by the use of raw material for army needs, otherwise devoted to their demands.

Following is a part of the army's demand for a year.

Garbage cans, 55,011; lantern wicks, 114,496; whistles with chain, 129,011; saddlers' wax, 29,936 pounds; soap, 18,690,153 pounds; soup kettles, 89,991; small field desks, 27,126; hats, 2,291,109; extra shoe laces, 19,182,700; nose bags for horses, 72,240; brooms, 54,720; whitewash brushes, 27,796; blacksmith shops, 344; camp chairs, 8,532; tooth brushes, 3,954,818; face

towels, 3,054,818; complete company barber shops, 19,624; tent stoves, 198,348.

## TROOPS THRU MURRAYVILLE

Three trains loaded with troops passed thru Murrayville Thursday bound northward via the cut-off. One train went thru in the morning and the third at 5 o'clock.

### FOOT SPECIALIST

If you have trouble with your feet, bring them to this expert for free consultation. All next week at our store.

### AUSTRIAN BANKS ARE IN STRONG POSITION

Will be Able to Meet Demands for Capital After the War—Increased Dividends Paid in 1916.

Amsterdam, Netherlands, July.—(Correspondence.)—The banks of Austria-Hungary are in a very strong position, according to the Vienna correspondent of the Amsterdam Handelsblad. "Never before," he writes, "were the deposits, reserve or profits of the banks of the Dual Monarchy higher than at present." The writer asserts that the demands for capital after the war, which are expected to be enormous, will find Austria and Hungary banks in a position to meet them.

There has also been a process of consolidation and accumulation, of reserves by industrial, commercial and agricultural organizations. With a few exceptions, the correspondent asserts, the Austro-Hungarian business world is everywhere marked by reinforcement. All financial institutions, writes this correspondent, have profited from the capital utilized in numerous new business enterprises. This, he adds, is shown by the generally increased dividends paid by Austrian and Hungarian banks for 1916. These banks invest in enterprises which in other countries are not normal by exploited banks. These undertakings include the development of shipping companies, country estates, cafes, theatres and stores. The increased earnings shown by the banks is declared by the correspondent to reflect increased profits in these various industrial or commercial enterprises.

Mrs. George Howard and daughter, Edna, were in the city yesterday from Beardstown.

### CURIOUS RESULT OF SUBMARINE CAMPAIGN

Amsterdam, Netherlands, July.—One of the latest curious results of the submarine campaign is that a Dutch shipping company, the Holland Steamboat Company, has decided to use British ships for its services to the United Kingdom ports, evidently under an arrangement with the British authorities. Several of this company's boats have been sunk by submarines and as there is no a regular convoy of British vessels to and from Holland, under a destroyer escort, it is considered too much like deliberately obliging Germany's anarchists of the sea to continue sending over single, unarmed ships under a neutral flag. The superior safety of the convoy across the North Sea is said to be a matter of much general knowledge among Dutch seamen that there will be no trouble in obtaining crews for the chartered British ships if this proves necessary.

A small advertisement when backed up with such values as are offered by FRANK BYRNS \$1.15 Shirts produce many demands.

### IMPORTANT REALTY DEAL

O. F. Conklin yesterday disposed of important realty holdings when he sold to Walter McCormick a farm containing 283 1-3 acres at \$190 per acre. The farm is one of the best in Morgan county well equipped with modern improvements and lies north of Alexander. Possession will be given March 1st, 1918.

Mrs. F. A. DeFrates and son of Springfield are visiting Mrs. A. P. Vasconcellos of East College street.

### ONE MAN KILLED WHEN AUTO TURNED TURTLE

William Summers of Meredosia Met Death on Road Near Beardstown—Two Others in Party Injured.

William Summers, aged 38 years, a resident of Meredosia, was instantly killed when an automobile in which he was riding turned turtle in the state road about one and a half miles from Beardstown at 9 o'clock Thursday evening. Floyd Blair, the owner and driver of the car, was cut about the face and Charles Rausch had his leg injured. Warren Edlen and Lloyd Coates, the latter an employee of the Central Illinois Public Service company, who also were occupants of the car, were uninjured. The men who are all residents of Meredosia, were on their way from that village to Beardstown. When Blair made the turn from the Arenzville road into the state road one of the rear wheels broke and the car turned turtle. Summers' skull was crushed, causing almost instant death.

Assistance was procured from Beardstown and Summers' body and the injured men were taken to Beardstown, where they were attended by Dr. Bly. The body of Summers was taken to Cline's undertaking establishment. The deputy coroner was notified and will hold an inquest today.

The dead man was a barber by trade and leaves a wife and five children. He was a member of the I. O. O. F. and M. W. A.

### PREPARE TO PLANT GRASS IN PARK

Samuel Nunes and John E. Pipes had men at work yesterday plowing up Central Park. This is being done by arrangement with the park board in preparation for grading and seeding. The board hopes by the use of the necessary amount of fertilization and the proper kind of seed to get a good stand of grass. It may be necessary also to do some trimming of trees as in parts of the park the shade makes it almost impossible to get a stand of grass.

### FRED J. BLUM AT AVIATION FIELD

Fred J. Blum of Illinois college is in the employ of the Unit Construction company which is building the big aviation field near Belleville. Mr. Blum writes that 2,500 men are working on the job and he has the position of adjustment clerk. He says the work, tho strenuous, is very interesting and he likes it very much.

### G. A. R. ATTENTION

Meeting of Matt Starr Post this evening, at 7:30.  
Geo. Faul, Com.  
C. E. McDougall, Adj.

### FINED FOR ASSAULT AND BATTERY

Walter Birdsell of Clements was fined \$25 and costs by Justice Dyer Wednesday on the charge of assault and battery. A peace warrant also has been issued against Birdsell and it is probable that he will be placed under bond to keep the peace. The complaining witness in both cases is Frank Butt. The trouble is said to have started over an alleged remark of Butt that Birdsell stole a jug of whiskey from him. The other day Butt drove to the elevator at Clements with a load of wheat and it is alleged that Birdsell attacked him. Butt has a bad bruise on one side of his face and the physician who attended him says he also has a fractured rib.

### WON FIRST MONEY

Clark Green, driving Miss Ophelia Peter, owned by George W. Foster of Alexander, won the 2:25 pace at the Illinois Valley Fair at Griggsville Thursday. The mare won the first heat, finished second in the second heat and then won the third and fourth heats and race. The best time was 2:15 1/4. Mr. Green also started Missouri Earl, owned by Thomas Lane of Quincy in the 2:17 pace. The horse was not acting right and after finishing in ninth place, Mr. Green withdrew the horse from the race.

### CAID OF THANKS

We wish to express our sincere thanks to those who so kindly remembered us in our recent bereavement. Also for the many beautiful flowers.

Mrs. Edward Brown and family.

### GOOD WHEAT YIELD.

Some good wheat yields are reported from the Franklin vicinity. Milford Rees has completed the threshing of twenty-six acres of hard wheat, the field yielding almost 43 bushels per acre. Mr. Rees sold the grain to the farmers' elevator at Rees station for \$2.25 or \$96.49 per acre. According to the Franklin Times, "R. S. McConnell, of the east side, has threshed a piece of wheat that would have been plowed up in the spring but for a good stand of clover. It averaged 19 bushels and returned \$45 to the acre. Mr. McConnell is confident that fields were plowed up that would have returned \$50 or \$60 to the acre if they had been allowed to stand."

### PROBATE COURT.

In the estate of Charles Holley, the inventory was approved.  
In the estate of William Russell, sale bill was approved.  
In the estate of J. T. Dickens, a report was filed and approved.  
In the estate of Margaret A. Smith the inventory received the court's approval.

### TOURISTS TO DENVER

Mr. and Mrs. James Gard and daughter Miss Mary and Mrs. C. C. Baldwin of Bloomington were in the city last night enroute to Denver, Colo. The party is traveling by automobile and carry a complete camping outfit and expect to camp out and do their own cooking on the way.

### EASTERN STAR CHAPTER FORMED AT MURRAYVILLE

New Masonic Auxiliary Body Begun With Charter Membership of Twenty-Five—First Meeting Tonight.

With a charter membership of twenty-five and great interest manifested at the inauguration ceremony, Murrayville chapter, Order Eastern Star, begins existence with auspices the most favorable. The chapter will hold the first regular meeting tonight in I. O. O. F. hall in Murrayville and meetings will hereafter be held the second and fourth Friday evenings in each month. A school of instruction was held all day Thursday, in charge of Mrs. Alice Daniels of Chicago, who with Mr. Daniels, the grand worthy patron conducted the organization ceremonies Wednesday night.

Three candidates were initiated at the initial gathering Wednesday night. They were Lee Wyatt, Benjamin D. Cade and Mrs. Thomas Irlam. The degree was exemplified by the staff from Manchester chapter.

The following are officers of Murrayville chapter:

Worthy matron—Mrs. S. B. Robinson.  
Worthy patron—Harry Cade.  
Assistant matron—Mrs. Mary E. Wright.  
Secretary—Mrs. C. R. Short.  
Treasurer—Mrs. H. G. Strang.  
Chaplain—Mrs. Roy Clark.  
Marshal—Mrs. J. T. Warcup.  
Conductress—Mrs. Jesse Fuller.  
Assistant conductress—Mrs. W. W. Walker.

### "NOTICE!"

Last day of our July Clearance Sale Saturday.  
RABJOHNS & REID

### BAPTIST CHURCH IMPROVEMENTS

At a meeting held recently members of First Baptist church Sunday School decided upon the last Sunday in November as donation Sunday, when subscriptions will be made for the proposed Sunday school building to be erected on the lot in the rear of First Baptist church. A number of plans are now under consideration for the building, which is to be thoroughly modern and will represent an outlay of approximately \$12,000. Work on the building will not be begun until a fair amount of the necessary funds are subscribed. It is proposed to raise at least a thousand dollars this year, and the plans for the raising of the money will be announced as soon as matured.

The sums contributed by various classes of the Sunday school will be earned by the classes in different ways and will be separate from the pledges of the individual members.

### NOTICE

N. J. Goss is in the employ of this company and is authorized to take subscriptions, make collections and advertising contracts. Mr. Goss has been in the employ of this company for more than a year.  
JACKSONVILLE JOURNAL COMPANY

### BURLINGTON WAY ROAD CONVENTION IN SPRINGFIELD

Carl H. Weber, president of the Burlington Way Good Roads association, attended a committee meeting in Springfield Wednesday held for the purpose of arranging for the annual convention of the association scheduled for August 13 at Springfield.

Headquarters during the convention will be maintained at the St. Nicholas hotel and entertainment will be provided for delegates by the Springfield Commercial Club. Reports of retiring officers will be made and new officers chosen. Various proposed routes and changes in present routes will be among the matters discussed.

Arrangements were recently made for a tour of inspection and promotion to Jackson, Miss. This trip will be made in the early fall. F. J. Kaiser, Charles S. Magill and C. M. Strawn of Alexander were present at the committee meeting Wednesday to ask for an extension of the route between Jacksonville and Springfield.

The Willing Workers and the Sunday School of Pisgah Presbyterian church will serve ice cream, cake and coffee on the lawn of Robert Hamilton (the George Moore farm) Friday evening, July 27th, beginning at 6 o'clock.

### VISITED FORT SHERIDAN

Ralph I. Dunlap returned yesterday from a visit of several days in Chicago. On Wednesday Mr. Dunlap went to Fort Sheridan and had a visit with Coach W. T. Harmon, Fred Stewart and R. A. P. Holderby who are in the officers reserve training camp.

Coach Harmon took Mr. Dunlap over the camp and showed him the trench work the men are doing and also the field where the bayonet practice is held. Harmon has been selected as one of eight men in his company to take special work in bayonet drill. This is with the view of having the eight act as instructors for the rest of the company. It also shows that Harmon is making good on the job.

Mr. Dunlap said that all three were looking fine and were enthusiastic about their work. He did not get to see Stuart Russell, Paul Strawn and other Jacksonville boys as he was there at supper time and they were scattered throughout the camp.

Mrs. Florence Ransom and daughter Ione of Beardstown are visiting relatives and friends here.

## FORM FEDERAL BOARD OF FARM ORGANIZATIONS

Object is to Co-ordinate Work of Farmer With That of the Nation and to Give Farmer Greater Influence in National Affairs

Washington, D. C., July 26.—Formation of the Federal Board of Farm Organizations marks the culmination of several days' meetings here of agricultural leaders from twenty-four states. In this board are represented associations having a total membership of more than a million and a half farmers, for whom for the first time comes true long-held dreams of a national federation of farm bodies.

Active in organizing this board are the Farmers' Educational and Cooperative Union of America, Farmers' National Congress, Pennsylvania Rural Progress Association, National Dairy Union, National Agricultural Organization Society, National Conference on Marketing and Farm Credits, and the National Council of Farmers' Cooperative Associations. Representatives of several other large farm organizations were present at the meeting and will report to their respective bodies on the work of the board.

**Result of Present Emergency**  
Objects of the federal board, which came into existence as a result of the present national emergency, are to co-ordinate the work of the farmer with that of the nation and to give the farmer greater influence and recognition in national affairs.

The board will keep in touch with national legislative matters, passing on to the farmers what they wish to know concerning Congress and keeping the legislators informed of the wishes of the people on the farms. Permanent headquarters will be maintained in Washington with a general secretary in charge. Following the organization of the board the executive committee elected Charles W. Holman, of Madison, Wisconsin, to this position. Mr. Holman has already made arrangement for the immediate opening of national headquarters in Washington.

**Executive Committee Members**  
Members of the executive committee are Charles S. Barrett, of Union City, Ga., president of the

## FIFTY DOLLARS REWARD PAYABLE IN GOLD

To the first man or woman who brings me a buyer to whom I make a sale of my home.

House contains nine rooms besides bath, pantry, toilet on both first and second floors, electric lights, gas, city water, well and cistern within the kitchen, furnace, large attic, floored, all in good condition. Lot 90x180 with good barn, chicken sheds, garden and grass plot.

Situated four blocks from the square, convenient to schools, churches and railroads. I will also sell furniture at attractive prices.

I offer my exceptionally desirable building lot, corner of College Ave. and Prospect St., with east and south front, water and sewer connections already made.

JOHN N. WARD

Farmers' Educational and Co-operative Union of America; Gifford Pinchot, of Milford, Pa., president of the Pennsylvania Rural Progress Association; W. T. Creasy, of Catawissa, Pa., secretary of the National Dairy Union; Charles McCarthy, of Madison, Wis., director of the National Agricultural Organization Society; and J. W. Shorthill, of York, Neb., secretary of the National Council of Farmers' Cooperative Associations.

Officers are to consist of a general board composed of one member from each of the uniting organizations; and an executive committee of five members chosen by the general board, no two of whom are chosen from the same organization. Both the general board and the executive committee select their own chairman. J. H. Kimball, of Port Deposit, Maryland, was elected chairman of the general board and R. F. Bower, of Campbell, Virginia, secretary.

Upon a three-fourths vote of the general board any organization of actual farmers may affiliate with the federal board. Each of the separate organizations contributes to the support of the board.

The first regular meeting of the organization will occur in Washington, in January, 1918, at which time permanent organization will take place.

## I. O. O. F. TO CARE FOR ARMY MEMBERS

Grand Sire of the Order Has Issued Statement Interesting to Wives and Children of Soldiers Who are Odd Fellows.

The members of the I. O. O. F. will be interested in the announcement that the order will take care of its injured members who may be at the front in France. This will be one of the important matters to engage the attention of the sovereign grand lodge at its meeting in Louisville this coming September.

The following statement was issued from Louisville by Grand Sire Frank C. Goudy of Denver:

"Never in the history of the order," the statement recites, "was there so much depending upon the assembling of American and Canadian Odd Fellowship in annual convention. In addition to transacting the ordinary business that will come before the sovereign grand lodge, there will be a large volume of work to be done by our order in co-operation with the Red Cross and like associations in furnishing relief to all who may be subjected to the horrors of this war. The fact that Odd Fellows will soon go to the front in protection of home and of civil and religious liberty, makes it our highest duty to provide for them when injured in battle, failing in health or otherwise requiring the fraternal and helpful care of our fraternity. The protection of our widows and orphans at this time is more essential than ever, so the duties devolving upon us relatively are greater."

"In view of existing conditions it is most imperative that the sovereign grand lodge meet this year for legislation on important matters that will confront us. Over \$500,000 was contributed to the relief of brethren during the last year and with the world's calamity forced upon America the succor to be extended during the war will run into great figures."

Many men are laying in a year's supply of shirts from FRANK BYRN'S Hat Store. The values will not be duplicated.

## FARMERS CO-OPERATE WITH DEFENSE COUNCIL

Want Farm Labor Exempted from First Draft in Order to Harvest Big Crops—Farmers' Committee Named.

Chicago, July 26.—Close contact between the Illinois State Council of Defense and the farmers of the state will be established by the organization of what is intended to be an advisory committee made up entirely of expert farmers to act in conjunction to the Councils' Food, Fuel and Conservation Committee. The personnel of the new advisory committee is J. W. Kirkton, of Gridley, chairman; Roy C. Bishop, of Livingston county; D. O. Thompson, of McLean county; W. G. Eckhardt, of DeKalb county and I. S. Brooks of LaSalle county. The willingness of the men to act as an advisory committee will be reported at the Committee's next meeting.

The committee was named at a meeting of the County Agricultural Directors of the state, which was also attended by State Director of Agriculture Charles D. Adkins and representatives of the farm press. Its chief purpose is to keep the State Council, and thru it, the Council of National Defense informed of the particular needs of the farmers, and to urge such action as will help the food producers of America, and Illinois in particular, in the gigantic task of feeding the world.

At the meeting of the agents two important matters were discussed. The first was the exemption of experienced farm labor from the first draft for the national army. To harvest what is expected to be one of the largest crops the state has ever produced, the county agents claimed, will require the service of every man who can be secured. They urged the National government that if farm labor is not spared from the draft it will be impossible to harvest the crop after it is grown.

The exemptions, it was stated, are needed only for this year. When the oncoming crop is harvested the men on the farms will be able to handle the situation and make provision for next year.

The second matter in which the farmers sought help is to get better transportation service, and the State Council was asked to do everything possible to get fertilizer and lumber—which will be needed for grain storage—out on the railroads' preferred commodity list.

The county agents also gave Harry N. Wheeler, president of the Citizens War Board, who presided, assurance that in order to insure the world a food supply next year Northern Illinois will take a chance on wheat and plant 25,000 more acres this fall than they have ever put in heretofore. They told him also to take the word to Washington that they will undertake to cooperate in every way with the food conservation movement.

There were at the meeting the following County Agricultural Advisors: C. H. Cathout, Champaign County; W. G. Eckhardt, DeKalb County; E. B. Heaton, DuPage County; L. W. Wise, Iroquois County; W. E. Watkins, Lake County; I. S. Brooks, LaSalle County; L. S. Griffith, Lee County; R. C. Bishop, Livingston County; A. J. Garke, Livingston County; D. O. Thompson, McLean County; P. R. Lisher, Woodford County; M. L. Mosher, Woodford County; and J. B. Newman, State Food Commissioner, Springfield. Also present: N. Abbott, Morrison; Prof. H. F. Schachin, Urbana; H. J. Seance, St. Del; Chas. Adkins, Director of Agriculture, Springfield; Burridge D. Butler, Publisher, the Prairie Farmer, Chicago; Miss Isabel Bevier, Domestic Science Dept. University of Illinois; Charles S. Snyder, Editor, The Farmers' Review, Chicago; A. C. Page, Editor, the Orange-Judd Farmer, Chicago; J. W. Kirkton, Gridley; President Agriculture Association and I. S. Browne, Genoa.

## JEWIS OBSERVE ANCIENT FAST DAY

Tisha B'ab Fast Commemorates Fall of Jerusalem More Than Eighteen Centuries Ago—Is Day of Mourning for Hebrew Race

New York, July 26.—Hebrews the world over will gather at temples and synagogues at sunset tomorrow to usher in with prayers and all the impressive ceremonies of the Jewish ritual the Tisha B'ab Fast, which commemorates the fall of Jerusalem more than eighteen centuries ago. The fast will commence at sundown and will last until the stars appear on Saturday evening. Elaborate services in all the temples of Greater New York will mark the opening of the observance.

For centuries the day, known as the Jewish Black Fast, has been set apart as a day of mourning for the race. During the 24 hours the strictly orthodox Jew eats and drinks nothing. The reform Jew, however, does not hold tenaciously to some of the old traditions.

The Tisha B'ab Fast commemorates the destruction of the Holy City in the year 589 B. C. by the Babylonians and the second conquest of the city by the Roman legions 656 years later. Again in 135 A. D., the soldiers of the Emperor Hadrian drew the plow over the site of the city.

In many European countries where Jews are not accorded equal significance, as on that day special services are devoted to the Zionist cause and in normal times many of the wealthier Jews make pilgrimages to Palestine, where they visit the ancestral sepulchres and the "Kosel Hamadrov" or the eastern wall, the only part of the great Jewish Temple still left intact.

**ATTENTION W. R. C.**  
Ladies of W. R. C. will hold their regular meeting at 2:30 A. R. hall Friday afternoon at 2:30. A large attendance is desired, as there will be some initiations.  
Mrs. Anna Ferguson, Pres.  
Mrs. J. C. Weber, Press.

## HUMANITY WEEK IS FIXED BY RED CROSS

"Get a Member" is the Appeal Made in Order to Bring State's Quota to Right Figure

Get a Red Cross member: This call to duty has been flashed out for each of the 610,000 men and women in the Illinois Red Cross. "Humanity Week" from July 30 to August 5th inclusive, was set aside as a period in which each member of the Red Cross in Illinois is expected to bring in one more member as his or her bit toward bringing the Illinois Red Cross to a war strength of a million.

As sons and brothers waited to learn their numbers on the draft those who are to stay at home were thus called to help in mobilizing their relatives and neighbors for the sake of mercy on the firing line, and back of it. National officials of the Red Cross were gathered in Chicago at the time the call went out, to put the American Organization in shape for the war emergency which, when America's full fighting force is in action, will tax every resource that can be assembled.

**Every Civilian Needed**  
Not only the soldiers at the front, but the wives, the children and the dependent parents of those who have taken up arms for their country must be cared for by the Red Cross. Every civilian is needed for the task.

These facts will be brought home to the people of every city and hamlet in Illinois, in the course of "Humanity Week." According to the plans for the week being arranged by W. D. Thurber, Director of the Illinois Red Cross, the chapters in each of the 102 counties of the state will be asked to arrange special programs for the week. Co-operation of the civic and business organizations in each community will be sought in the effort to impress upon all the needs of the war relief work.

The aid of the churches in each county will be sought by the Red Cross Chapter of the county in launching "Humanity Week." The pastors will be asked to call attention in their sermons to the work of mercy which can be aided by joining the Red Cross.

The days which follow are expected to see the membership rolls of the various Chapters enlarge at a rapid rate as the returns come in from the individual work of the members.

**Results Expected**  
"To bring in one Red Cross member is not much to ask of any man or woman when thousands of our young men are preparing to march into unknown dangers," declared W. D. Thurber, Director of the Illinois Red Cross. "The Red Cross can meet the big war emergency only to the extent that the people at home support it. If every person now in the Red Cross takes out a membership for some other member

of the household, some neighbor, or some acquaintance during "Humanity Week," we will be brought to the war strength of a million members we are expected to reach.

"I hope every Chapter in the state will realize the importance of this final pull that will bring us to the top of the hill which must be mounted if the Red Cross is to fulfill its mission in this war. I hope every one now in the Red Cross will do his part. Few will find it impossible if they determine to do it, and many will bring in many new additions to the Red Cross rolls, instead of one."

## BIDS FOR COAL

Bids are hereby asked for supplying the city light plant and pumping station with coal for the contract year, which will begin August 9, 1917. Bids are desired for the light plant on mine run, No. 4 and 5 washed, egg; 1 1/4 inch screenings; for pumping station mine run and steam lump.

The council reserves the right to reject any and all bids, which will be received until 10 a. m. Tuesday, July 31st.

R. L. Pyatt, City Clerk.

## JUST GOT OVER A COLO?

Look out for kidney troubles and backache. Colds overtax the kidneys and often leave them weak. For weak kidneys—well, read what a Jacksonville man says:

"Fred I. Gibson, 369 Woodland Place, Jacksonville, says: 'I had a spell of the grip and it seemed to settle in my kidneys. When I got the least cold, after that, I had a dull pain in the small of my back. I felt all played out and had but little energy. I used Doan's Kidney Pills, procured at Armstrong's Drug Store, and they gave me great relief. Since then when I have felt the least return of the trouble I have taken a few doses of Doan's Kidney Pills and they have soon made me feel all right again.'"

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Gibson uses. Foster-Milburn Co., Props, Buffalo, N. Y.—Adv.

**The Real  
American Beauty**  
How glorious and wonder-  
ful is the advent of another  
life. When baby is born  
there comes into the world a new  
soul, the real American Beauty.  
When the hour arrives it should be  
the dawn of a new and perfect  
future. The joy of motherhood  
should be as free from fear and  
danger as it is possible to make it.  
Thousands of women have used  
the safe and reliable application,  
"Mother's Friend". It is a won-  
derful help to nature in relieving strain  
and distress brought about by ex-  
panding muscles. The nerves, too, will be  
calm, making the period one of cheerful  
days and restful nights. The breasts are  
kept in good condition and the abdominal  
muscles relax with ease when baby is  
born. "Mother's Friend" makes it possi-  
ble for the expectant mother herself to  
actually aid nature in the glorious work to  
be performed, and no woman should neg-  
lect or fail to give nature a helping hand.  
It will mean infinitely less pain at the  
crisis.

Do not fall under any circumstances to  
get this greatest remedy, ever com-  
pounded for expectant mothers. Write to  
the Bradfield Regulator Co., Dept. J,  
206 Lamar Building, Atlanta, Ga., for their  
book, "Motherhood and the Baby". They  
will send it free. It is not only very use-  
ful, but will make you helpful to others.  
Remember to ask your druggist for a bot-  
tle of "Mother's Friend" today.

**CUT DETROIT GRAND  
CIRCUIT MEET DAY SHORT**

Hal Boy Established Season's Speed  
Record in the Free-for-all Pace,  
Altho Single G., Wins the Race.

Detroit, Mich., July 26.—The an-  
nual Grand Circuit meeting cut one  
day short, presumably to prevent  
further loss, ended with today's  
racing. The last day crowd saw a  
splendid race in the free-for-all pace  
in which the season's speed record  
was established by Hal Boy, altho  
Single G. won the race.

All the races went into extra  
heats. The 2:16 trotters took four  
heats, Bessie G. won the first and  
then Tommy Murphy came along  
with Peter Cheneault and took  
the next three handily.

Stephen won two heats in the  
2:10 trot with plenty on reserve  
but broke in the last part of the  
third when Brescia pushed him and  
the rest of the race was easy for  
Brescia.

From here the Grand Circuit  
moves to Kalamazoo, where racing  
begins next Tuesday.

The Summaries:  
2:16 trot, purse \$1,200. Peter  
Cheneault won; Bessie G. second;  
Francis Belmont, third. Best time  
2:07 3/4.

Free-for-all, purse \$2,000. Single  
G. won; Hal Boy, second; Ben Earl,  
third. Russell Boy also started.  
Best time 2:01 3/4.

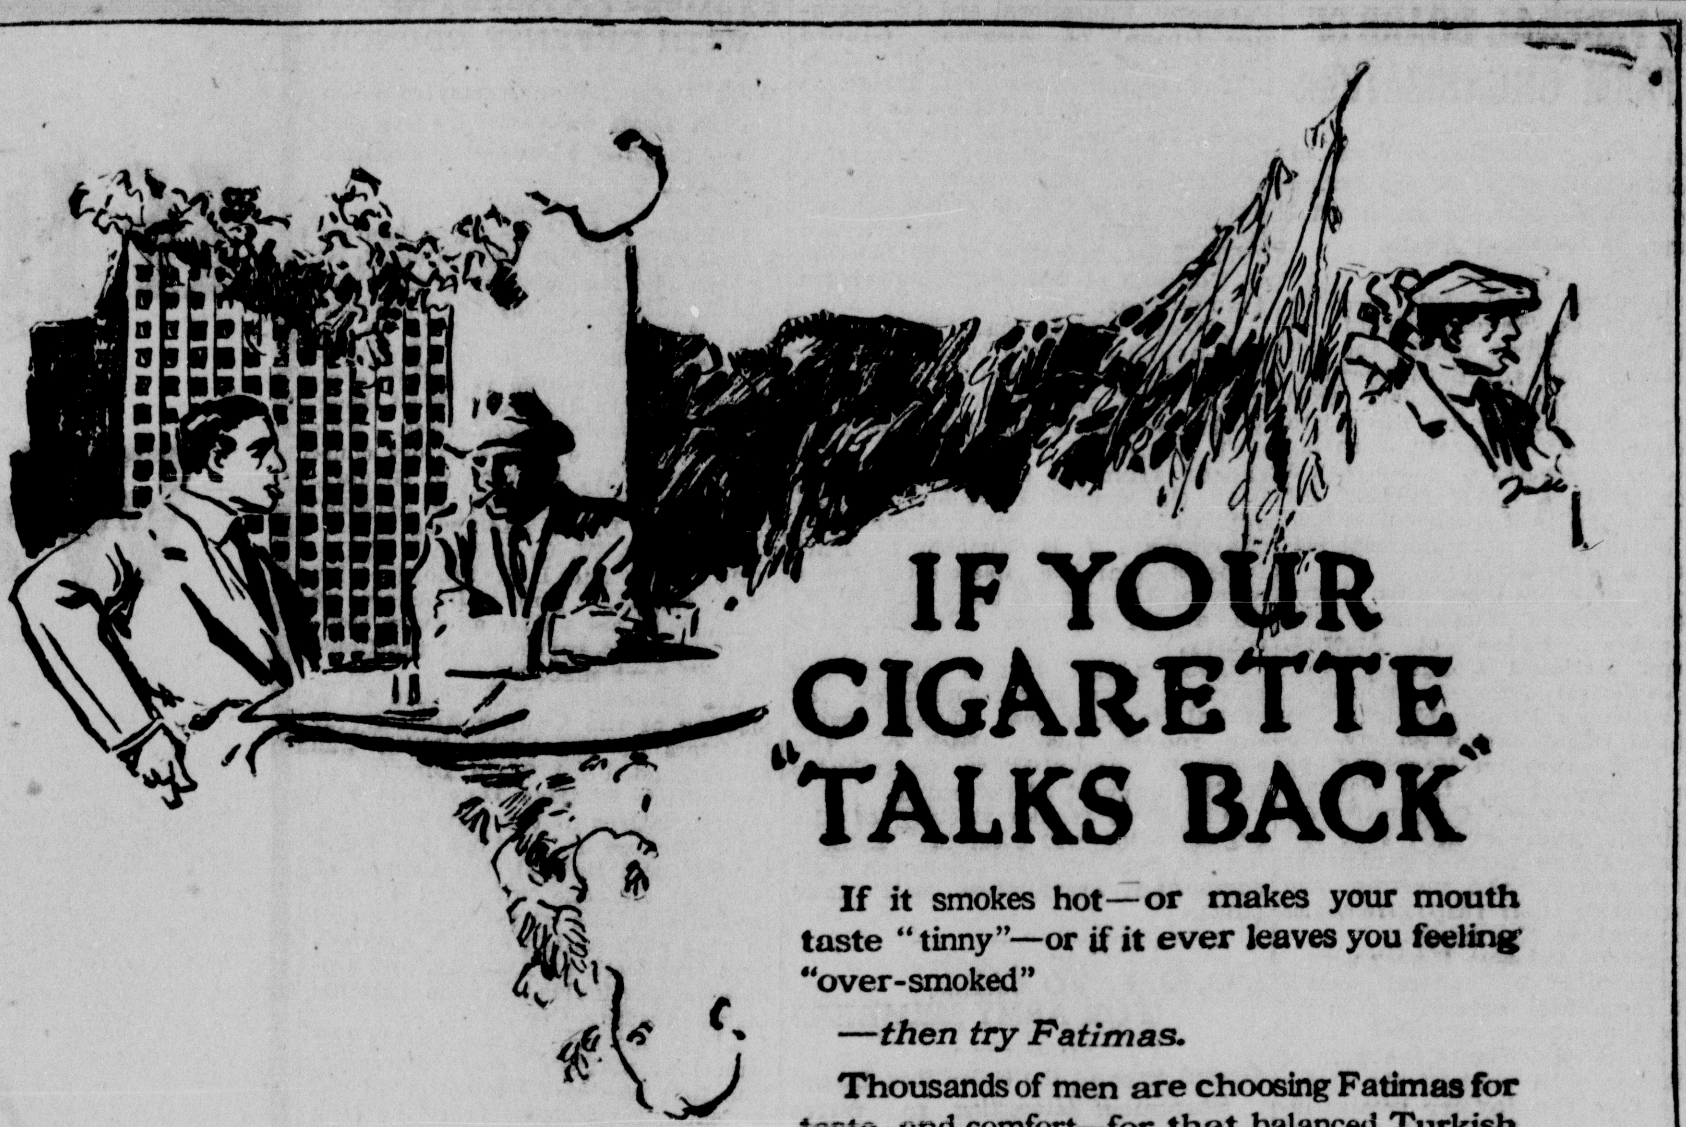

2:10 trot, purse \$1,200. Brescia  
won; Stephen, second; The Guide,  
third. Best time 2:08 3/4.

**RUTH LAW TO MAKE FLIGHT.**

Chicago, July 26.—A cross coun-  
try flight over Illinois cities begin-  
ning next Monday was announced to-  
day by the Illinois Red Cross. Ruth  
Law, aviatrix, will drop harmless  
bombs telling of the Red Cross work  
and its importance.

DeKalb, Morris, Elmhurst, Law-  
renceville, Mount Vernon and Mur-  
physboro are scheduled stops in the  
flight.

E. E. Kramer of Viola, Kans., was  
visiting friends in the city yester-  
day.

**IF YOUR  
CIGARETTE  
TALKS BACK**

**YANKS DEFEAT SOX IN  
FOURTEEN INNINGS**

**NEW YORK FILLS BASES WITH  
NONE OUT IN FOURTEENTH**  
Baker's Sacrifice Fly Brings in  
Baumann With the Winning Run  
—Boston Wins Two Games from  
St. Louis

New York, July 26.—New York  
defeated Chicago in a sensational  
fourteen inning game here today 6  
to 5. The Yankees filled the bases  
with none out in the fourteenth on  
singles by Baumann and Pipp and  
a fielder's choice and Baker's sac-  
rifice fly brought in Baumann with  
the winning run.

**MR. AUTO OWNER!**

Why throw your old auto tires away when they are good for  
2500 to 6500 more miles.

My method of taking two old tires and making one good one is  
saving thousands of auto owners from 50 to 75 per cent on their bills.

Send me two old tires and I will make one good tire that you can get from 2500 to  
6500 more miles out of. In sending me tires be sure one has a good rim no matter how  
bad the tread is worn. For the other one that has a good tread no matter what condi-  
tion rim is in.

If You Haven't a Tire with a Good Tread I Can Furnish You One

**PRICES FOR DOUBLE TREADING**

SIZE	When you fur- nish both tires	When You Fur- nish one tire	SIZE	When you fur- nish both tires	When You Fur- nish one tire
30 x 3	\$2.25	\$4.00	35 x 4	\$3.25	\$6.25
30 x 3 1/2	2.50	4.25	36 x 4	3.50	6.50
31 x 3 1/2	2.50	4.50	34 x 4 1/2	3.75	7.00
32 x 3 1/2	2.75	4.75	35 x 4 1/2	3.75	7.00
32 x 4	3.00	5.50	36 x 4 1/2	4.00	7.50
33 x 4	3.00	5.50	37 x 4 1/2	4.00	8.00
34 x 4	3.25	6.00			

Where a tire is blow out an additional charge of 50 cents is made. Patches neces-  
sary in a tire, an added charge of 35 cents for each 10 inch patch.

Tires sent to me should be prepaid as I pay no transportation charges either way.

**Carl G. Wiesenmeyer**  
410 East Washington Street. Springfield, Ill. Bell Phone 819

8 to 3, gaining on Chicago, the  
league leaders. Poor pitching and  
wretched fielding gave Boston the  
first game in which Ruth had easy  
sailing.

In the second Jones' men started  
away well by hitting Foster hard  
but as the contest progressed Fos-  
ter improved. Sotheron was bom-  
barded with base hits and gave way  
to Rogers, who did not prove any  
puzzle to Boston.

**Lemons Whiten and  
Beautify the Skin!  
Make Cheap Lotion**

The juice of two fresh lemons  
strained into a bottle containing  
three ounces of orchard white makes  
a whole quart pint of the most re-  
markable lemon skin beautifier at  
about the cost one must pay for a  
small jar of the ordinary cold  
creams. Care should be taken to  
strain the lemon juice through a  
fine cloth so no lemon pulp gets in,  
then this lotion will keep fresh for  
months. Every woman knows that  
lemon juice is used to bleach and re-  
move such blemishes as freckles,  
sallowiness and tan, and is the ideal  
skin softener, smootheners and beau-  
tifier.

Just try it! Make up a quart pint  
of this sweetly fragrant lemon lotion  
and massage it daily into the face,  
neck, arms and hands. It should  
naturally help to whiten, soften,  
freshen, and bring out the hidden  
roses and beauty of any skin. It is  
wonderful for rough, red hands.

Your druggist will sell three  
ounces of orchard white at little cost,  
and any grocer will supply the lem-  
ons.—Adv.

Recent Detroit Red Sox clashes  
show that the Tigers would just  
about fall into a championship, if  
only the Sox stood in the way.

# FAILURE OF EXPECTED RAINS LIFTS CORN

Market, Itho Unsettled at the Close,  
Shows Net Advance of 1/2 to 2 1/2  
Cents

Chicago, July 26.—Disappointment over  
the failure of expected rains in the  
southwest brought about higher prices  
today for corn. The market also un-  
settled at the close, showed a net ad-  
vance of 1/2 to 2 1/2 cents with September \$1.63 1/2  
to \$1.64 1/2 and December \$1.16 to \$1.16 1/2.  
Wheat gained 1/2 to 3/4 and oats 1/2  
to 3/4. In provisions, the outcome was a  
setback of 1/2 to 1 1/2 cents.  
Uneasiness regarding excessively dry  
weather in the southwest together with  
generally unfavorable crop reports from  
there forced many corn shorts to cover  
and led to a considerable amount of  
purchases for investment. On the ex-  
change, however, offerings broadened  
where most of the commercial crop of  
the country is raised was more favor-  
able than at any other time this season. Be-  
sides rural shipments to arrive here  
seemed to have been noticeably curtailed.  
Nevertheless bears did not maintain  
their aggressiveness in the late deal-  
ings. The result was that final transac-  
tions were virtually at the top point of  
the day.  
Need of soaking rains for the spring  
wheat crop in the northwest especially  
North Dakota and Western South Da-  
kota acted as more than a counter-  
balance for beneficial downpours in Can-  
ada. The market was bullishly af-  
fected also by the fact that winter wheat  
sowed to have been noticeably curtailed  
as a year ago.

# BREAK RECORDS FOR DULLNESS IN STOCKS

Steels and the More Prominent War  
Issues Supply Over Two Thirds  
of the Total Dealings.

New York, July 26.—All records for  
stock market dullness thus far this sum-  
mer were broken today, dealings barely  
exceeding 300,000 shares. Of this slender  
total, steels and the more prominent war  
issues and shipments supplied over two  
thirds.  
Probable effect upon other roads whose  
mained unquoted through the session,  
falls being especially ignored. The at-  
tendance of brokers on the exchange  
was in keeping with the day's meaning-  
less operations. The action of the St.  
Paul directors in reducing the semi-  
annual dividend from 2 1/2 to 2 per cent  
did not become known until almost the  
close of the day. The cut occasioned  
no surprise having been forecasted in the  
evening of the stock for weeks past.  
St. Paul fell to 8, an extreme de-  
cline of 1 1/2 points on the news but im-  
mediately rallied scoring a slight re-  
gain. More than ordinary interest at-  
tached to the decision of the St. Paul  
board however, because of the promi-  
nence of the dominant interests and the  
probable effect upon other roads whose  
earnings have been more or less  
disappointing.  
Other happenings of the day, such as  
the sudden advance in refined copper,  
higher rates for rubies and continued  
advance on a large scale of the gold outflow  
to Japan, South America and other foreign  
points attracted little more than passing  
attention.  
Movement of stocks, except in motors,  
shipments and a few speculative issues,  
higher rates for rubies and continued  
advance on a large scale of the gold outflow  
to Japan, South America and other foreign  
points attracted little more than passing  
attention.  
Bonds were irregular, large blocks of  
the liberty issue changing hands at 99 1/4  
to 99 1/2.  
Total sales (par value) aggregated \$2-  
90,000.  
United States bonds were unchanged  
on call.

## MRS. BURNHAM JAMAICA, N. Y.

Sufferings Cured by Medicine Recommended by Sister-in-law.

Jamaica, N. Y.—"I suffered greatly with my head and with backache, was weak, dizzy, nervous, with hot flashes and felt very miserable, as I was irregular for two years. One day when I was feeling unusually bad my sister-in-law came in and said, 'I wish you would try Lydia E. Pinkham's Compound.' So I

began taking it and I am now in good health and am cured. I took the Compound three times a day after meals, and on retiring at night. I always keep a bottle in the house."—Mrs. L. N. BURNHAM, 295 South St., Jamaica, N. Y.

Women who recover their health naturally tell others what helped them. Some write and allow their names and photographs to be published with testimonials. Many more tell their friends. Write Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for anything you need to know about your ailments.

## DEMAND FOR CORN FED CATTLE IS BRISK

Market Shows No Let Up for This Class of Stock—Big Shipments of Grass Cattle Lower Some Prices—New Records Set.

In a review of the Chicago livestock market, Alexander, Ward & Conover have the following to say: The J. R. Wren steers from Gower, Mo., two loads, 1448 pound branded Herefords, sold at 11:20 a. m. today at \$14.15. Still a new world's record price on the open market. Luther Conover made it. Mose Greenwald bought them for the Nangle Packing Co. of New York. Thus Mr. Wren repeated his record-breaking performance of Monday of last week by "inching up" the top 15c from that day.

STEERS—Another good selling market for choice steers this week. Today prices were strong and in many cases a few notches higher than Monday. However, anything below \$12.25 looked 10@15c down. Market unevenly off today for grassers, showing 35@40c decline for week on bulk, some 50c lower.

Trend of things is that way on the grassers and plain quality cotton seed meal stuff. Quality plain today, a small showing of good cornfeds. Yearling market a dandy where fat stuff is concerned. We sold Rankin & Lynn, Tarkio, Mo., yearlings at \$13.40, others from Ohio at \$13.20. Fancy yearlings topped Monday at \$13.90. Nothing to worry excepting the probability of too many grassers coming and pushing values down on them.

Market action this week confirms our predictions made last week and previously to the effect that nothing could impose a hardship on sellers of good corn-fed cattle. Beef trade east slowing up, result of Kosher "fast days," but even this influence has small effect. Big supplies of grassers in trans-Missouri markets still forcing prices down there and this week have had effect in hitting the market for grassers a hard blow at Chicago. Monday prices on grassers 25c to 40c lower, a weaker market again Tuesday and today still some new declines. Our ability to cash right good steers of any weights at last week's prices clearly demonstrates ample demand for all corn-fed kinds. We believe it will continue and do not urge cattle to come off corn where not in good condition. Better make them a little more finished. Hammering of grassers commands policy of holding them in pasture until grass cures, and then feeding a little corn to give them a "corny" look. Will sell all the better for it. Our sales this week, listed on this page, clearly point the excellence of market for anything desirable.

BUTCHER STOCK—Steady trade today for fat dry-lot cows and heifers. Yearling heifers strong. Grass cows, canners to medium beef stuff weak, 15@20c lower again. Bull market had a terrific break, 25c today. Calves 25@50c lower. Choice \$13.50.

Cow and heifer market going down—result of big supplies of grassers west. Prices Monday and Tuesday 25c to 40c lower. Dry-lot yearling heifers stronger today. Canner market 25c lower than last week. Bull market 35c to 50c lower. Feeder trade still dull, common and medium narrow. Supply increasing. This should effect lower prices later on and induce broader demand.

HOGS—Trade started slow; good corn-fed hogs strong to 5c higher. Packers held off and bought none early. Later they took good hogs stronger, but would not buy others except at steady rates. Market weak in middle rounds.

Belgium relief committee is a heavy buyer of lard and other products. This helped provisions today. Market a dandy the first two days this week. Advanced 20c over last Saturday, scoring top of \$15.95 on Tuesday. Good corn hogs very

## MAYR'S Wonderful Remedy for STOMACH TROUBLE

One Dose Convinces  
Coover & Shreve's  
East Side Drug Co.  
and druggists everywhere.

scarce, quality continues poor and likely will for weeks ahead. Shipper demand still light. Spread in prices widest of season. Looks as though it would continue. Our advice to buyers "way down." We have cautioned this for weeks past.

Today's prices: Choice corn-fed 170 to 200 pounds \$15.40@15.80. Choice corn-fed 200 to 240 pounds \$15.70@15.90. Prime butchers and heavy \$15.90@16.00. Grass packing mixed weights hard to quote. Prices depend entirely upon quality and how the lots are mixed. Range from \$14.25@15.00. Pigs 110 to 120 pounds \$13.75@14.25; 130 to 150 pounds \$14.50@15.00.

SHEEP—Lambs had a hard break today. Bulk 25c lower. Best westerns \$15.40; bulk good native lambs \$15.00@15.25; two or three loads \$15.50, well sorted kinds at \$15.00. These at \$15.00@15.25 sold relatively highest. Sheep steady. Feeding lambs \$15.25, cull lambs \$11.00@12.00. First decent run of westerns for the season here today. We expect to see them coming from now on; but not in any great abundance.

Sheep and lambs lower this week on increased receipts. Lamb boycotting by railroad dining car service having bearish effect on trade. Packers claim carcasses still lose money. Range stuff moving in small supply. Idaho yearlings, feeders and killers \$10.40 to \$10.50. Choice native ewes \$9.00 to \$9.25. Breeding ewes \$13.00 for plain, good to choice yearlings \$14.50 to \$15.00.

No time like the present to stop indigestion and stomach ills. Mi-on-a tablets do the work. 50c a box at Coover & Shreve's drug stores; your money back if they fail.—Adv.

## WILL BE 98 YEARS OLD AUGUST 14

Pike County Republican: Pike county's oldest citizen will celebrate his birthday on August 14th. He is Mr. Peter Knight, of Martinsburg township, who will be 98 years old on that day. He was born in Harrison, county, Virginia, August 14, 1819. His memories go back almost to the time when Illinois became a state. A friend of Mr. Knight suggests that Pike county people honor him on his birthday with a congratulatory post card shower.

The Pickings Man has frequently referred to Mr. Knight, as Pike county's oldest citizen. The reference has never been challenged. Several months ago it was noted that Solomon Beheymeyer, residing with his daughter, Mrs. Emily Hoskin, of Eldora, lacked only one day of being as old as Mr. Knight. Mr. Beheymeyer was born in Pleasant Hill, Ohio, August 15, 1819.

Mr. Knight has two daughters aged 67 and 69 and two sons aged 70 and 76. The family average age is 76 years.

Mr. Knight's home in Martinsburg is a typical home of the olden time. Old furnishings, old pictures, old books and the manners of courteous old Virginia gave the place an atmosphere of other days and old friends are always greeted in this home with old fashioned hospitality.

## CARD OF THANKS

To the friends who gave their kindly assistance during the time of our great bereavement we wish to extend our sincere thanks, assuring all of our deep appreciation for the many favors shown.

Mrs. Joseph T. Means and family

Mrs. Maude Grevy has returned to her home in Beardstown after a visit with friends in the city.

## PROMINENT LOCAL MERCHANT TALKS

## Silas Hughett Pays New Medicine Tanlac Glow- ing Tribute

Silas Hughett, local grocer of 758 West Lafayette street, is one of Jacksonville's best known business men. Mr. Hughett has been in business in this city for the past twenty years and he is known and highly respected here. His many friends will no doubt be interested in his statement made on May 15, regarding the relief he derived from Tanlac, the celebrated new medicine.

"For the past two or three months I'd had the headache every day," Mr. Hughett said. "Both my stomach and liver were in bad condition. My liver was sluggish and never acted properly. I was usually constipated. Violent headaches caused me great distress."

"It's almost too good to be true but I haven't experienced a single headache, since the first few doses of Tanlac. My stomach is in fine shape now and my liver. I'm certainly well satisfied with Tanlac for it has helped me where numerous other medicines had failed."

Tanlac is now being introduced in Jacksonville at the Coover-Shreve Drug Co., East Side store, where a special Tanlac representative is explaining the new medicine to the public daily. Tanlac also may be obtained at the West Side store of the Coover-Shreve Co. It is sold in Waverly at the Wyle Drug Co.; in New Berlin at the New Berlin Drug Co.; in Ashland at H. O. Brownback's; in Versailles at A. G. Bates'; in Chapin at F. P. McKinney's; in Roodhouse at W. D. Berry's; in White Hall at the City Drug store; in Bluffs at F. T. Curtis'; in Pittsfield at J. H. Barber & Co.; in Loomis at L. N. VanDoren's; in Diverson at E. G. Haug's; in Manchester at C. D. Chapman's and in Winchester at the City drug store.—Adv.

## WOMEN OF DEFENSE COUNCIL TO CONVENE

Mrs. F. O. Lowden to Preside at Meeting—Purposes to be Explained—Prominent Women to Attend.

Springfield has been selected as the place for the second convention of the woman's committee of the Illinois division of the National Council of Defense. A two days' conference will be held, opening on August 1, and continuing over August 2. The place for the meetings has not been selected.

So successful was the conference held in Chicago in June, in stimulating interest of the women who attended that a call was issued from the central part of the state for a similar conference and Springfield was immediately selected as the most central point. Mrs. Frank O. Lowden several days ago, while in Chicago, promised to preside at the meeting. She is one of the honorary chairmen of the organization.

The speakers and the committee from Chicago will come down on a special car, which will be donated for the purpose. Miss Harriett Vittum, director of the women's committee for Illinois will have charge of the conference. The program will follow that of the conference in Chicago, as closely as possible.

To Explain Purposes. Through the various departmental chairmen, thirteen or fourteen in number, the purposes of the committee will be set forth. The need that stimulates these purposes will be explained by the speakers, either members of the committee or men of business who can marshal the facts to best advantage.

The registration of all women of the capital city for the time work, will be taken up at this time. While the registration is voluntary, the need of the country in the crisis has served to make it almost compulsory in Chicago, where special training schools have been opened for those who were not trained in any way to aid.

The pledging of a certain number of hours each week to aid the United States will be the question put up to the women of central Illinois at the time of the conference here and the leaders in Chicago are confident that the answer will be a list of hundreds of women to give from one hour to many hours each week for war relief work. While the Hoover pledge for food conservation which the first lady of the land, Mrs. Woodrow Wilson, was the first to sign, is not directly a part of the work of the committee, it is likely that this question will also be taken up.

Many Prominent Women Come. It is likely that Mrs. Frank O. Lowden will entertain for the committee members during their two days' stay in the city.

Among the prominent women who will be seen at this meeting here will be Miss Agnes Mester, Mrs. Joseph T. Bown, president of the Illinois division; Mrs. Fred A. Dow, vice president; Mrs. Edna A. Scroam, assistant director; Mrs. Grace Wilbur Trout, Mrs. Funk and others who are more or less familiar to Capital City residents through their work in various suffrage and social welfare organizations and campaigns.

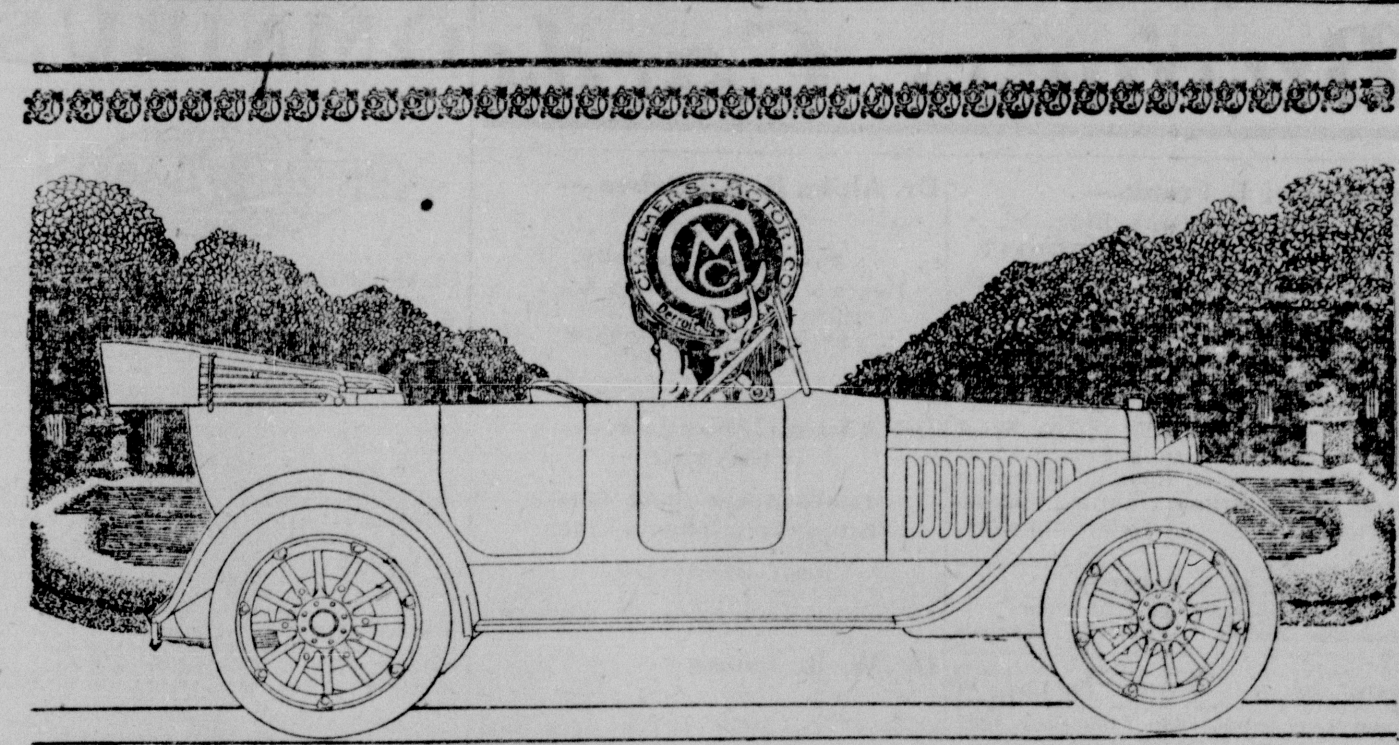

## FERRO-SILICON "MADE IN AMERICA"

Northern capitalists have purchased the old Southern Steel Works at Chattanooga, Tenn., and are having it put in shape to house the Southern Ferro-Alloys Company, capitalized at \$2,100,000. First among its products will be ferro-silicon—50 per cent grade or higher—made by the electric furnace method. Contracts for the necessary water power have been signed with the Tennessee Power Company, the largest single order for power ever given by a firm in Chattanooga.

Ferro-silicon (silicon and iron) is one of the numerous ferro-alloys mixed with steel to improve its quality, this particular alloy being employed to remove occluded gases and to make steel solid and free from blow-holes. At the time the tariff law of 1897 was drafted all ferro-silicon in this country was produced by the blast furnace method, producing at best 10 to 15 per cent silicon content. The tariff duty under that law was \$4.00 per ton, and even at that rate one of the largest domestic manufacturers of the product, the Bessie Company, of New Straitsville, Ohio, found that its average production cost of 10 per cent ferro-silicon, laid down in Philadelphia was \$24.80 per ton, without any allowance for profit, while the average selling price at the same place for the foreign product was \$22.50 per ton.

Later on, and prior to the passage of the Republican law of 1909, the electric-furnace method was developed, which enabled our manufacturers to put on the market a product with a silicon content ranging from 50 to 95 per cent and from four to eight times as valuable as the blast-furnace product, but as the high tariff rate applied to all grades this high-grade product received practically no protection. For instance, in 1897 the average value per ton of imported silicon was \$17.60, the equivalent ad valorem rate of duty, at \$4.00, was 22.73 per cent, while in 1907 nearly ten times as much was imported, average value per ton, \$7.25 (a higher grade premium) the equivalent ad valorem duty fell to 5.54 per cent. The manufacturers of the lower grade product showed good reason for a slight duty increase, and the manufacturers of the high grade presented ample proof that a 20 per cent ad valorem rate was reasonable, so the 1909 law made two classifications: Below 15 per cent content, \$5.00 per ton; over 15 per cent content, 20 per cent ad valorem. Thereafter production showed an immediate increase.

Then came the 1913 tariff law which put the kibosh on prosperity in this county until a world war re-

NOW READY FOR YOUR VIEW; TEN NEW CHALMERS FOR THE AUTUMN TRADE; EACH A LURE TO THE MAN WHO LIKES A THING WELL MADE; AND A SOLACE WHEN YOU FIND HOW SMALL THE COST.

Possibly you did not buy a car in the Spring because of the war, but now that business is better and money easier, here's your chance to get a peek sixty days ahead at the Fall and Winter motor car types. At least at the Autumn and Winter Chalmers; and after you have seen one of them you can almost guess the rest.

Here they are:

1. A 5-passenger Chalmers that looks and acts quality.
2. A corking Roadster that any alert woman would love to drive.
3. A Speedster guaranteed to do 80 miles an hour.
4. A Town Car that will make any woman supremely happy.
5. A 7-passenger car that in comfort leaves little to the imagination.
6. A Cabriolet that is wind proof, sun proof and storm proof—and alluring.
7. A Limousine that is thoroughly correct in appointment.
8. A Limousine Landaulet which speaks a volume in practicability.
9. A Sedan that is "nimble on its rolling rubber feet".
10. A Town Car Landaulet that, in our judgment, tops anything like it ever built.

All these gorgeous Chalmers are built on one chassis—a quality chassis; the bodies fully justify the chassis. One look makes you reach for your cheque book.

TOURING CAR, 5-PASSENGER	\$1250	TOWN CAR, 7-PASSENGER	\$2925
TOURING CAR, 7-PASSENGER	\$1350	TOWN CAR, LANDAULET	\$3025
STANDARD ROADSTER	\$1250	LIMOUSINE, 7-PASSENGER	\$2925
TOURING SEDAN	\$1850	LIMOUSINE LANDAULET	\$3025
CABRIOLET, 3-PASSENGER	\$1625	RECORD SPEEDSTER	\$2500

"Country" Mixed Iron Wanted

suscitated it. The Democrats, without paying any attention to the difference in cost of producing the two grades, put both on a 15 per cent basis. As usual they aimed for general results, and we got it. The production of ferro-silicon in 1914 fell way below par.

Our chief competitor in this product has always been Canada, where they have the advantage of cheaper charcoal and the use of Government bounty-fed water power and somewhat cheaper labor. Today Canada supplies over 90 per cent of our imports. Prior to the war there was considerable competition from Sweden and Norway, where the cost of water-power is not 50 per cent of the cost to our manufacturers, while 12-hour a day labor ranges from 50c to \$1.25, compared with \$1.75 to \$6.00 here for an eight hour day.

Of course the war has cut off the European competition, although that from Canada has increased about 50 per cent over protective years. But the Southern Ferro-Alloys Co. can take heart and go ahead. We are going to have the proper tariff for this country as soon as the Republicans force the issue in 1918. Mr. Wilson has got to swallow the protective doctrine.
